OUR DUTY BEGINS.

he labors of the Resident Committee ompletion, the duty of our citizens . The consummation of the one is ; the pleasing discharge of the s about to commence. Such an asge has never before been witnessed country, and so far as human sagacfortell may never be witnessed We may well feel proud that our ity has been honored in its selecthe place for the noble defenders of g to assemble to proclaim the prinor which they fought and conquered, signify in what manner they desire those principles secured and perpetuated. With this pride as our natural right let us by our actions show that we are worthy of the honor, by honoring those who made our glorious cause triumphant, and let our welcome to them be cordial and complete.

Our first duty as citizens is to see that no soldier or sailor is left without proper care and attention during his stay in our city. "Freely have ye received, freely give." To our noble Army and Navy we are today indebted for the protection of our Government, and for the inestimable blessings resulting therefrom and through which we have waxed strong and prospered. Out of our abundance let us give what we can, that none of our heroes may reflect upon us for want of hospitality. In extending them a cordial, hearty greeting we will revive memories, pleasant and agreeable, to ourselves and them. Hundreds, perhaps thousands, of our guests will recall former visits to our city, when they partook of the good cheer of our Subsistence Committee, which was so liberally provided for our noble defenders on their journeys to and from the field of battle. With ourselves it will be a pleasure long to be remembered to give entertainment once more to the true heroes of the war.

HOW WILL THEY GREET THEM?

The Soldiers and Sailors will attend the Convention to-morrow without any regard to former differences. Will honor be done them in consideration of their glorious services and achievements without regard to their present political views? Will our Democratic citizens extend a welcome to them and give them a little practical demonstration of the love they now so much profess to have for the soldier? Will the buildings of the Government, these heroes saved from destruction, be illuminated in honor of their noble deeds? Let the soldiers who are in the city Tuesday night observe whether their Democratic professed friends are friends indeed, and whether they make any demonstration in their honor. As the Democrats deal altogether in theory, it would be unreasonable to expect them to do anything practical at this late day. They won't demonstrate unless men sell their principle and support ANDREW JOHNSON and his rebel faction.

GOVERNOR CURTIN.

Among the distinguished speakers who will address the thousands that will assemble in the city this week will be Gov. A. G. CURTIN, of Pennsylvania. The Union Central Committee has appointed Wednesday as the time when the Governor should address his fellow citizens of Allegheny county, and he will arrive in the city to-morrow to fulfill his appointment. This appointment is most opportune, for he will here meet once again thousands of men whom he called into the field, and whose necessities he was ever careful to provide for. The Governor will meet with an enthusiastic welcome from the "Boys in Blue."

Their Reception.

Proceedings of Committees---City Hall, the Decoration---The Interest in the City---The Prospect.

It seems as if the Fates would smile upon the grand and glorious demonstration with which the patriotic "Boys in Blue"—those who think and intend to vote as they shot—intend this week to make Pittsburgh forever famous in the nation's history.

After a season of the most dispiriting and disagreeable weather that ever the autumnal equinox visited upon us, we are favored by what promises to be a settled spell of brilliant sunshine, tempered by such cool and bracing breezes as make active exercise a pleasure. By day the solar rays are penetrating enough to dispel the cloud that too permanently shades our city, and to make the streets look bright and inviting even to visitors from such perennially dazzling places as New York and Philadelphia. At night, the moon, now near its full, lights up the scene with softened radiance and sheds o'er all the town a mellow splendor.

Nevertheless, we would venture to suggest that it would be well, while outside sojourners are here, to temporarily forego our accustomed habit of economy in the matter of lamps, and to further illuminate our thoroughfares for a night or two with gas. The general impression made upon our guests would be more favorable; especially when delegates are wending their ways homeward to Pittsburgh hotels through the rugged highways of Allegheny.

The prospect of a meeting, unprecedented in point of numbers, character and enthusiasm, are flattering in the highest degree. Immense delegations are on their way here now from every part of the country. No branch of the army or navy will lack of full and distinguished representation. Heroes who shouldered muskets will be here in hosts. Heroes, under whose command they fought and conquered, will once again lead them against an enemy, venomous still, though the fangs through which he struck his poison have been drawn.

No greater honor could be paid the Iron City of the West than to have it selected from among all others of the Union as the place where such a demonstration should be made. It is a tribute to its thorough, uncompromising loyalty that can never be forgotten; that will in all time to come shed a lustre upon its name that future generations native here will be found to feel reflects some portion of its glory upon them.

Preparation for Reception.

A commendable spirit of emulation inspires our citizens in their efforts to give the expected delegations such a welcome as they deserve and have a right to look for. Private citizens vie with each other in offering their hospitalities to anticipated celebrities, and full and generous provision has been made for the care and comfort of the crowds of less prominent of their country's defenders, who will arrive here in large bodies. Many, of course, will prefer staying at the hotels, and judging from the piles of applications made by letter and telegraph accumulating on the clerks' desks of the different leading houses, it would be safe to predict that rooms will be utterly unobtainable by an early hour of this evening.

In case of unlooked for emergencies, arrangements have been made by a committee of thoughtful, energetic ladies to load a festive board of colossal dimensions with all the delicacies and substantials of the season, whereat, belated, hungry warriors can eat their fill and grow happy in the smiles of their fair entertainers.

Of all manner of pyrotechnic accessories there is no end. Every drug shop is an arsenal and quiet book stores have been turned into so many slumbering volcanoes. No Fourth of July ever brought forth for ignition so many Bengola lights, so much red, white and blue fire, such stacks of rockets, and such piles of Roman candles as will flash about and over Pittsburgh, and turn its smoky canopy to a lurid haze to-morrow night.

The turn-out will be unparalleled in the annals of the city. Not only will there be in the procession the delegates themselves. Every fire company will escort them and the long line will be swelled by many trades associations and other societies. A specially noticeable and effective feature will be the long cavalcade of butchers and draymen, driving the matchless horses for which Pittsburgh is so justly and universally renowned.

It is impossible to estimate the number that will join in the grand, imposing and significant review. Not only will our people turn out in eager masses to cheer and animate and aid in the display, but we hear that already all the managers of the railroads leading hitherward are at their wits' ends to put on sufficient rolling stock to supply the demand for traveling facilities.

Distinguished Guests Here and Expected.

It is impossible to say what of all the names made illustrious by the war, will be inscribed on our hotel registers or welcomed in private houses during the week. Many will, no doubt, be here, who have been unable yet to assure us of their presence; but of many others we are already sure. General Butler and family have engaged rooms at the Monongahela House; General Banks will be the guest of Hon. J. K. Moorhead; Governor Cox, of Ohio, formerly Major General, Commanding the Twenty-Third Corps, will be at the Monongahela; so will Governors Curtin, of Pennsylvania, and Morton, of Indiana, who, though not soldiers themselves, did more to put soldiers in the field and do them justice when there, than almost any men in the country. Also at the same hotel are General Farnsworth, best known as Colonel of the dashing Eighth Illinois Cavalry; General Shaler, Commander of a brigade in the Sixth Corps; General John Cochrane, his predecessor in the same command; General Frank Barlow, one of the bravest of the brave in battle, though now filling the peaceful office of Secretary of State for the State of New York. Besides these, are Generals Foster and Palmer, New York; Lee and Ferry—a brilliant orator and United States Senator elect—of Connecticut; James Stewart, McAllister, Jardine and others from New Jersey; Sargent and Dunham, from Massachusetts; Walter Harrison, from New Hampshire; and ever so many, we need scarcely say, from this State—among them General Collis, of Philadelphia, and our next Governor, Major General John W. Geary, who will once more meet a legion of the boys of the glorious "White Star" division, and amid the cheers—the cheers of those that knew him as their kindly, untiring protector in camp and on the march, and their vigilant, corageous leader in the field—be able to smile upon the contemptible detractors who have sought to cast a shadow on his fame.

General Streight, who once escaped from the horrors of Libby, and through privations almost incredible found his way once more beneath the flag, leads the Indiana list which further includes the names of Gen Thos W Bennett, Gen Dan Macauley, Bvt Gen J G Vaile, Col Wm H Schlater, Bvt Gen Thos J Brady, Col Wm O'Brien, Bvt Gen Edward Mehler, Maj O M Wilson, Maj John N Scott, Maj Erie Locke, Capt J O Hardesty, Capt George W Green, Capt H C Perkins, Capt E F Hunt, Private W G Cooper, Private John Fiscal, Lieut Wm Warren, Lieut Robt McMasters, Lieut C Tomhemell, S J N Pinkley.

Of other distinguished civilians Governor Fairchild, of Wisconsin, must not be forgotten. He did good service in the cause. Last, but not least, we have received a telegram that Major General John A. Logan—bosom friend of Stephen A. Douglas, one time Democrat, always patriot, commander of General Sherman's old corps, "the invincible Fifteenth," and probably the most successful, to the end, of all our military civilians—we say we have received a telegram that he will be here. He will be here and speak; and when he does speak, be sure that thunder will be heard all round. John A. Logan has not forgotten Vicksburg, nor the disposition of the folks he met on the way from Savannah on to Raleigh.

We shall have more than these, of whose coming we are not at this moment notified; but have given names of enough to show the amount of soldierly renown and weight of civil stamina that will give backbone to this great and glorious representative Convention.

The Press Representatives.

The press of New York, Cincinnati, Boston and Chicago, is already largely represented in the city, and full and accurate reports of the proceedings of the Convention and its surroundings will be transmitted daily by telegraph to the newspapers of those cities. The following gentlemen arrived yesterday: J. B. McCullough, *Commercial*, Cincinnati; H. V. N. Boynton, *Gazette*, Cincinnati; James R. Young, Geo. P. Edgar and Daniel Dennison, *Tribune*, New York; Ben. Perley Poore, *Journal*, Boston; Sidney Andrews, *Advertiser*, Boston; J. A. Dear, *Republican*, Chicago; J. Henry Riley, *Alta California*, San Francisco; John A. Finch, *Gazette*, Indianapolis; D. A. Lavine, *Herald*, New York; J. R. Dunglison, *Press*, Philadelphia.

Decorations of the City Hall.

Yesterday was a *dies non* with the active, tasteful lady decorators of the City Hall. Up to Saturday evening they had made fair progress with their labor of love; but it will take all of to-day to bring their portion of the work they have undertaken to a close. They have made the vast wilderness of the hall a bower of verdant loveliness. With pine and hemlock and what other evergreens they could obtain, they have so bedecked its walls and disguised its ceiling that the most constant frequenters of the place would scarcely know it. It has been festooned and bannered till little of its natural appearance remains, and the devices that have been wrought, are as appropriate as they are beautiful.

Of course when ladders had to be used in reaching elevated spots the charming members of the Committee had to call in masculine aid; yet we wish the visiting boys in blue, who will crowd the hall to-morrow, to understand, that for the magnificent *coup d'œil*, which will greet their vision when they meet in our spacious municipal chamber, they are indebted to the ladies.

Among the mottoes, that embellish various well chosen spots, are these:

HONOR TO THE HEROES OF LIBERTY, HUMANITY AND EQUAL JUSTICE.

On the right is the following: THE VOLUNTEER SOLDIERS AND SAILORS: IN PEACE THE BULWARK OF THE LAW; IN WAR THE STRONG ARM OF THE PUBLIC DEFENSE.

The badges that marked the various corps of the army, and which are so treasured in the hearts of those who wore them, are pinned up with rosettes between the windows. There are those of the Second, the Nineteenth, the First, the Sixteenth, the Seventeenth, the Eleventh, the Twelfth, with those of the Engineers, Artillery, and Signal Corps, on the right; on the left these of the Eighteenth, the Fifth, the Third, the Fourteenth, the Fifteenth, the Ninth, the Sixth, the Fourth, and the Twenty-Third, the Cavalry and the Navy. On either side of the Speaker's stand are the original insignia of the Armies of the Potomac and the Cumberland. A superb star crowns the graceful festoons with which the ceiling is draped. Near them are portraits of Washington and Lincoln—the two men destined by Providence to preside over the affairs of the country at its first birth and at its regeneration!

THE WIGWAM.

This vast structure rapidly approachs completion. It will undoubtedly be finished by the evening, and will accommodate a tremendous crowd. It is one hundred and twenty feet in width, by two hundred and twenty-five feet in length, and is well and strongly built. But it is not intended, nor could it possibly contain the throng of those who will be here to participate in the Convention. It has only been erected as a precautionary measure, in case the elements—which is not likely—should prove unpropitious. With the fine weather, which seems almost guaranteed to us the "Boys in Blue" will gather in the open air, and it is a question whether they can be accommodated in the expansive area of even the Commons.

A Roman Mother.

Cornelia gave two of her jewels to Rome. Foremost among the ladies, who have exerted themselves to make the City Hall a suitably elegant place wherein the boys may meet, is Mrs. Elizabeth T. Woods, of Allegheny. Six of *her* boys did she send to the defense of their flag and country. Three of them rest in graves of Southern soil that their young blood has baptised. James and William fell in the engagement at Gaines' Mill during McClellan's disastrous campaign; Ralph slowly mouldered away in the horrid pen at Andersonville. It is hard, in the recollection of such sacrifices, to be very anxious to take one's erring sisters by the hand, even though they were more penitent than they at present seem to be.

MORNING SESSION.

The Resident Committee of the Soldiers and Sailors' Convention, and the Executive Committee of the Allegheny County "Boys in Blue," held a joint meeting at City Hall, on Saturday morning. The Chairman, General J. S. Negley, presided, and Sergeant John H. Kerr officiated as Secretary.

Procession of Tuesday Night.

The programme of procession of Tuesday evening was then read, and the following correction made: The Fourth, Fifth and Sixth Wards to compose the Third Division, under command of Colonel Jos. Browne.

All mounted delegations will form on the right of the divisions to which the District organizations are assigned.

Miscellaneous.

Lieut. S. H. Kennedy was added to the Committee on tan bark to cover the streets around City Hall.

Colonel Robbins reported that all the carpet houses offered all the carpeting necessary for the use of the Convention. A vote of thanks was tendered to Mr. McClintock, for furnishing carpets, and to other carpet houses for their kind offers.

On motion, Lieut. S. H. Kennedy and Sergeant R. D. Barker were appointed a committee to secure fifty horses for the use of the distinguished strangers on the 27th.

Captain McConnell reported that Sergeant John McClelland would take command of the gun squad now formed, and supplied him with ammunition for firing a salute.

Printing of Programme.

Lieut. W. B. Cook moved that the Printing Committee be authorized to have one thousand cards printed of the programme and route of the procession, and also insert an advertisement of the same, which was adopted.

Subsistence for Delegates.

Col. T. M. Bayne moved that a public table be erected, and that a committee of ladies be appointed by the Association of ladies to attend to the same, and receive provisions from citizens disposed to give them. The motion was unanimously adopted.

Commanders to Meet To-Day.

Gen. George S. Gallupe moved that the commandery of all organizations proposing to turn out be requested to meet between the hours of eleven and three on Monday, at City Hall, which was adopted.

Thursday's Demonstration.

It was resolved that the officers to be designated to command the procession on Thursday shall be selected from among the distinguished officers who shall be present at the Convention. Their names and the route of march will be announced early next week.

Accommodations for the Press.

General A. L. Pearson moved that a committee of three be appointed and authorized to secure sufficient furniture for the Reporter's Room. The motion was adopted, and Dr. J. G. McCandless, Sergeant Joseph H. Gray and Lieutenant S. H. Kennedy appointed the committee.

The following important communications were read, accepted and ordered to be filed:

The Eagle "Old Abe" to be Brought Here.

STATE DEPARTMENT, MADISON, WIS, September 18, 1866.

J. H. GRAY, Esq., No. 40 Grant street, Pittsburgh, Pa.—*Sir:* Governor Fairchild directs me to say in reply to your letter of the 15th instant, that the delegation of soldiers from Wisconsin to the Pittsburgh Convention will bring with them the eagle "Old Abe."

CHAS. FAIRCHILD, Secretary.

Indiana Responds to the "Roll Call."

HEADQUARTERS DEP'T OF INDIANA, GRAND ARMY OF THE REPUBLIC, ADJUTANT GENERAL'S OFFICE, INDIANAPOLIS, IND., Sept. 18, 1866.

GENERAL: Indiana will respond to "roll call" as she did in '61. Very respectfully, your obedient servant,

O. M. WILSON.

The following order was issued in Indiana:

SIR: I am directed by Major General R. S. Foster, commanding Department of Indiana, Grand Army of the Republic, to request you to take immediate measures for a full representation *en masse*, or by delegates from your district, to the Pittsburgh Convention of Soldiers and Sailors, to be held on the 25th of this month.

No Convention of a similar character has ever been held, and it becomes us, as loyal Soldiers, to cordially respond to this call.

The American Volunteer Army, though disbanded, is yet a unit, and the same high emotions which knit its members together when hardship came, or the conflict raged, still actuate the mass of our Soldiers.

No credentials are necessary except *loyalty*. Indiana presented them in the field, and let it ever be said she stands ready, at any time, in any way, to present them anywhere on the face of the globe.

O. M. WILSON, Adjutant General's Department.

Encampment of G. A. R. of Indiana.

POST NO. 1, GRAND ARMY OF THE REPUBLIC, KENDALLVILLE, IND., September 19th, 1866.

Resolved, That we, the members of this Encampment of G. A. R., feeling ourselves to be in full sympathy with the high and noble aims and intentions which have caused our comrades of the Army and Navy to call a Mass Convention, to meet at Pittsburgh, Pennsylvania, September 25th, 1866, to express their views on the important political issues agitating our common country, do in special meeting declare ourselves fully endorsing this noble call in each and every particular; and therefore

Resolved, That the Commander of the Post order the Adjutant to send these resolutions, accompanied by the number of members (one hundred and twenty-five) of the Encampment, to General James S. Negley, Pittsburgh, Pennsylvania.

M. F. COLLIER, Post Comd't.
H. H. NELSON, Post Adjutant.

Delegates from Maine.

BANGOR, MAINE, September 16, 1866.

GENERAL: At a meeting of the soldiers and sailors of Bangor and vicinity, held, pursuant to notice, in the City Hall this day, the following persons were chosen to attend the Soldiers' and Sailors' Convention, at Pittsburgh, 25th September, viz: General Charles Hamlin, Major Sidney W. Thaxter, General John F. Appleton, General Daniel White, General H. M. Plaisted, Captain W. H. Boynton, and private Amos E. Hardy.

Of these you can depend upon at least two being present, including myself. The late unfavorable weather affecting our grain crops, &c., will prevent many in this State from attending.

We have not heard from our "back towns," but Chamberlain has, up to date, 29,000 majority.

Very truly, your obedient servant,

CHAS. HAMLIN.
Maj. Gen. James S. Negley, Pittsburgh, Pa.

"Yankee Tars" From Uniontown.

UNIONTOWN, Pa., September 20, 1866.

Dear Sir:—The pleasant duty of thanking you on behalf of the committee awaiting upon me for the satisfactory response you have given us, and we have taken the liberty of having it published in the district papers, as the committee believe it will exert a strong effect on bringing out the people.

Look out for a "resurrection" from this district. We will have a frigate's crew of tars rigged out in regular man-of-war style. There will also be a crew from Philadelphia, doubtless, as I have urged the measure upon our officers there, at the Navy Yard, and they promise to act in the premises. Cordially,

CHAS. STEWART, U. S. Navy.
Major General J. S. Negley, President, Convention "Boys in Blue."

GENERAL JAMES S. NEGLEY—*Dear Sir:* I am anxious to be present at your great Soldiers and Sailors' Convention on the 25th inst., and hereby request you to add my name to the list of soldiers who yet feel an interest in the welfare of their Government, and by acts as well as words, will endeavor to show Andrew Johnson, and all rebel sympathizers, that we have not and will not soon forget the bloody and desperate struggle we have just come through to save the Union, and do not now wish to lose all the fruits of that desperate struggle by quietly leaving the traitors and their friends rule us after we were compelled to conquer them in battle.

I am, respectfully, yours truly, etc.,

DAVID W. FOX,
Late Captain Co. A, 55th Reg't P. V. V.

From Hartford, Conn.

HARTFORD, CONN., September 18.

Central Village, Windham Co., Conn.

Delegation from Mercer.

MERCER, September 11.

GEN. JAS. S. NEGLEY—*Dear Sir:*—There will be a delegation from this county at Pittsburgh on the 24th. It will number fifty or more. Will arrive on the evening train from New Castle. Respectfully Yours, S. B. RODGERS.

From General Farnsworth.

PITTSBURGH, September 20, 1866.

GENERAL NEGLEY:—*Dear Sir:* Colonel S. C. Matlach, Captain J. M. Southworth, and myself, are elected delegates to the Convention of the 25th, from the Eighth Illinois Cavalry Regiment. I shall certainly be present, as will (probably) the others. Truly yours, &c.,

J. A. FARNSWORTH,
Late Brigadier General.

Endorsement of the Call.

PITTSBURGH, September 19, 1866.

GENERAL NEGLEY:—*Dear Sir:* I most heartily approve of the call for the Soldiers and Sailors' National Convention to be held in Pittsburgh. With the hope that it may result in uniting more firmly all patriots, in resisting the treachery of those in power, and establishing the great principles, for which so many thousands laid down their lives, I remain, yours, respectfully, CALVIN O. DIFFENBACHER.
Late Hospital Steward, 101st Regiment Pennsylvania Volunteer Veterans.

Operations in Allegheny.

PITTSBURGH, Pa., September 21, 1866.

MAJ. GEN. JAS. S. NEGLEY—*My Dear Sir:* We are trying to co-operate with you and the Resident Committee in making the Convention of Soldiers and Sailors a success. The loyal ladies of Allegheny held a meeting this afternoon to make arrangements for erecting an arch on Federal street, about the line of South Commons. The citizens of the First ward erect a large Geary flag pole to morrow.

The "Boys in Blue" and the Republicans of the First ward are at work. We will hand you a list of names and residence of those who can entertain soldiers attending the Convention, on Monday. Yours in the cause,

SAMUEL RIDDLE.

Resolved, That the Superintendents of the Public Schools of Pittsburgh, Allegheny, and the surrounding boroughs, be requested to close their schools, in order that the teachers and pupils may have an opportunity of taking part in the demonstrations during the holding of the Soldiers' and Sailors' National Convention in this city. At the close of the exercises he read a communication from the committee of the Second ward, asking the citizens to open their houses for the accommodation of delegates from a distance, and urged the importance and necessity of the measure in a few brief remarks.

Beaver County Delegation.

The "Boys in Blue" from Beaver county have held a meeting of the different Geary clubs in that county, and resolved to attend the Soldiers' Convention in a body. A regimental organization was effected by the election of Captain M. R. Adams as Colonel, with the regular number of regimental officers.

Sergeant Robert Dickey, member of the Central Committee for the Twenty-fourth District, states that at least one thousand of the "Boys in Blue" will attend the Convention from Beaver county alone.

The steamboat Pine Grove has been chartered under charge of Captain Marshal Hays, for the conveyance of the League of Beaver county, leaving Georgetown at six o'clock Tuesday morning; Rochester, eight o'clock; and Economy, ten o'clock; arriving in Pittsburgh about two o'clock P. M.

Secretary Seward Rapidly Improving

Reorganization of the Army.

Trial of Jeff. Davis.

To Commence October 14th.

Special Dispatch to Pittsburgh Commercial.

WASHINGTON, September 22, 1866.

Public Land Sales.

The Commissioner of the General Land Office has received returns from the branch Land Office at Omaha, Nebraska, showing that 6,018 acres of the public lands were disposed of during August, of which 2,106 were entered under the homestead act, 3,200 were located with Agricultural scrip, 480 with military warrants, and the rest sold for cash.

General Custar.

Together with other delegates to the Cleveland Convention, have arrived.

Place Hunters Leaving.

Owing to the President's declaration to grant no more interviews to delegations who have arrived here urging changes in the offices, a large number of applicants for official positions left to-day. The attendance at the Executive Mansion was therefore quite thin to-day, as compared with that of the past few days. There have not been as many changes during this week as was anticipated.

Secretary Seward's Health.

The telegrams sent from here last night, representing Secretary Seward's health as being in a low condition, are without foundation. He was well enough to-day to walk to the White House and spend some time with the President. He will resume his official duties on Monday next.

The Cleveland Delegates.

The delegates appointed by the late Cleveland Convention of Soldiers and Sailors, to wait on President Johnson, and present him with a copy of the proceedings of that body, are expected to perform that duty on Tuesday next. They will arrive on Monday evening, and on Tuesday they will be escorted to the White House by the Conservative Army and Navy Union of this city.

Military Change.

By War Department General Order No. 77, the headquarters of the Department of Tennessee is transferred from Nashville, Tenn., to Louisville, Ky.

The New Army.

The President was busily engaged to-day in preparing a number of commissions for the new appointees in the new regular army. Gen. Grant and the Adjutant General's office are rapidly completing their labors in reorganizing the army.

The Rumor

That T. W. Talmadge, Esq., of Columbus, Ohio, had been suspended from prosecuting claims in the departments here, is found, on examination, to be a mistake. Mr. Talmadge stands well in all the departments.

Postmasters.

One hundred and fifty postmasters were removed for the week ending yesterday.

Thurlow Weed

Arrived in town to-day, with Collector Smythe, of New York. It is freely rumored that the latter gentleman is to be removed, and that General Dix is to be appointed in his place. An effort is being made to secure the removal of John Hays, Secretary of Legation to Paris. H. S. Lane, of New York, is a prominent candidate for the position.

Trial of Jeff. Davis.

It is intimated from the proper quarter that Jeff. Davis's trial will take place on the 14th of October. District Attorney Chandler is still here in consultation on the subject.

TELEGRAPHIC SUMMARY.

Minister Harvey writes a letter to Henry J. Raymond from Lisbon, concerning the action of Congress in stopping his pay and allowances. He says: "For the expression of these and similar opinions in the unreserve of private correspondence, it has been considered right to inflict a severe penalty, and to establish a precedent unknown in American legislation. The fact is that it cannot be regarded as a pernicious example, which may find worse imitation hereafter, than as a wrong to any individual, who will soon be forgotten, while this harsh record will long survive. The salary provided by law for the office with which I am honored may be withheld, but it is not in the power of any body of men, however influential they may be to divest me of the rights which belong to the humblest American citizen, to alter my convictions, to deter a becoming expression of them, or to prevent the discharge of the trust confided to my keeping."

In a dispatch to parties in Ohio, under date of the 22d inst., Secretary McCulloch says: "Payments of bounties will be made under the rules which have just been completed by the war Department. The Paymaster General has been instructed to commence payments at once. There will be no delay on the part of the Treasury Department."

The steamship Borussia brought nearly three-quarters of a million of treasure.

The failure of the Producers' Bank, Chicago, is more serious than at first reported. Its liabilities are $180,866, and its assets only $110,923, including four notes of $25,000 each, signed by H. Doolittle, C. H. Doolittle, L. Doolittle, and E. B. Talcott.

The South Carolina Legislature, on Friday, passed a bill guaranteeing civil rights to the freedmen.

All the applications now on file in the Paymaster General's office, and at the office of the Second Auditor of the Treasury for the additional bounty authorized by act of July 28, 1866, are to be returned to the applicants, containing the indorsement, "Returned for amendment in conformity with the regulations from the War Department of September 16th, 1866." Applications of heirs, &c., for all claims of deceased soldiers, and applications for bounties of every class accruing to colored soldiers, living or dead, must be made direct to the Second Auditor of the Treasury, and not to the Paymaster General.

Vera Cruz correspondence of September 11th, states that there are no indications of the withdrawal of the French troops. French money was being expended in large amounts to increase the strength of the Imperial army. *La Ere*... of Vera Cruz, says France permits the enlistments of volunteers, and will give to the Imperial Government arms and munitions of war. The *Estafette* says General Uraga proceeds to Europe on a mission, and will then accompany the Empress back to Mexico.

Maximilian has also appointed a Minister to the Pope. It is true that Maximilian desires to leave, but the French authorities, acting under instructions from France, object. Some skirmishing had occurred just outside the walls of Vera Cruz. At night, the Liberals came quite close to the city. The Imperialists had met with a disastrous defeat in Michoacan. The report said the Imperial General had to abandon everything. The people and merchants of Vera Cruz will have nothing to do with the new Maximilian stamped dollar. The steamer Panama, from France, brought eleven officers and 157 men of the French foreign legion. A new commander was expected from France to succeed Bazaine. It was announced at the capital that a new campaign for retaking Matamoras and Tampico would be opened in the latter part of September. Several attempts had been made to charter light draft steamers at Vera Cruz for a purpose not distinctly avowed. The French are erecting fortifications on the land side of Vera Cruz. Col. Seran was within nine miles of the city with a considerable force of Liberals, and had issued a proclamation to the inhabitants of the State to join him. The Liberals hold Cerro Gordo, Puente National and other points on the road to the capital.

Ruffianism in Chicago—A Horse Jockey Murdered.

CHICAGO, September 22.—In the trot yesterday between Cooley and Butler, the first two heats were won by the former, the next two by Butler. The excitement before the fifth heat was intense, and considerable ill-feeling was displayed by the drivers of both horses. Jockeying delayed the start for the last heat until after dark, from which Butler came in without a driver, who was found near the half mile pole with his skull broken. There are suspicions of foul play, and Cooley's driver is under arrest. The driver of Butler was named McKeever. He is still alive this morning, but his recovery is doubtful.

CHICAGO, September 22.—McKeever, the driver of Butler, died this evening, from injuries received at the driving park last evening. There is no doubt that his death was the result of foul play. A board, the end of which was covered with blood, was found near where the body lay. It is surmised he was knocked from his seat with this weapon by some persons interested in the success of Cooley. The affair is the subject of conversation on all corners to-day. Other arrests besides the driver of Cooley have been made.

A Terrible Tragedy.

NEW YORK, September 22.—A dreadful tragedy occurred this morning, in the Fourteenth ward, which resulted in the death of two Italians named Peter Funani and Alexander Ureni. Funani was a maker of plaster of paris casts, in the basement of No. 146 Elm street. Ureni was a journeyman moulder, and is said to have been an excellent artist. Funani was about getting out a plaster bust of Madame Ristori, which he was anxious to have finished immediately in order to take advantage of the present excitement. This morning Ureni, who was at work on the model did not reach the shop until eight o'clock. This enraged Funani, who asked the workman what he meant by not coming there until that hour. Ureni curtly answered that he would come to work when he pleased. This led to an angry retort from the employer, and the men were soon involved in a quarrel. Funani, who was a powerful man, advanced towards Ureni, who was much smaller, when the latter drew a small single barrelled revolver from his pocket and fired. The ball took effect in the left breast of Funani; he fell to the floor, and some friends removed him to his residence, No. 46 Elm street. Ureni, as soon as he had fired the shot, fled to the street. He was pursued and caught, when he shot himself and instantly expired. Funani's wound is considered mortal.

IMPORTANT STATEMENTS.

Davis and his Trial—The President—Surratt.

During the last few months of the session of Congress, it was given out by the friends of the President that Jeff. Davis could not be tried until there was some legislation by Congress. The speaker said he introduced a resolution in Congress, which was referred to a Judiciary Committee for the purpose of investigating the facts concerning the complicity of Jeff. Davis in the assassination of Mr. Lincoln, and report whether legislation was necessary. This committee, in their investigation, had an opportunity to read two papers found in one of the Southern States, which had been in possession of Jeff. Davis, and which contained the opinion of Davis of North Carolina and Reardon, a Texas postmaster, on the question, what the rights of the rebel States would be in the Union after the surrender of Johnson to Sherman in the spring of 1865. Those papers were lengthy, and they were the first known declaration of the policy which Mr. Johnson was now pursuing in reference to the rebel States. According to the opinion expressed in them, these eleven States had a right to seats in the Legislature of this country as soon as they laid down their arms. Mr. Johnson is answering all their reasonable expectations.

"Johnson has said to the crowd in Cleveland, 'Why don't you ask Judge Chase why he don't try Jeff. Davis?' Mr. Boutwell said he could answer that question for Mr. Chase. The reason was because Jeff. Davis was not held by any process issued at any court of justice. There was not a marshal in this country who could lay his hand on the shoulder of Jeff. Davis, because President Johnson, as commander-in-chief of the army, stands by and protects him, and prevents any officer of the law from trying him. It was the height of impudence for him to ask that question. He was not tried because President Johnson held him by military power. There was one question, the speaker said, which he would ask Mr. Johnson, and it was one he had yet to answer. It was this,—Why do you, as President of the United States and commander of the army, restrain this man and hold him so he cannot be tried by any of the courts of law? Why hold him for sixteen months, when the law of the land says every criminal is entitled to a speedy trial?

"There was another question also which the President must answer. John H. Surratt was implicated in the assassination of Mr. Lincoln, and it is on the records in the War and State Departments that it was known to some of the officers of the government, by Mr. Seward certainly, where this Surratt was. Letters were sent to him across the ocean. He was in Europe in the jurisdiction of a friendly government—a government with which we had no extradition treaty, but one which would unquestionably have surrendered Surratt. Why was he not demanded? This was another question which must be answered in the course of events."

WENDELL PHILLIPS.—Mr. Wendell Phillips will probably receive the Republican nomination for Congress in the Third Massachusetts District. Mr. Phillips was originally nominated for Congress by the working men of Boston, on account of his advocacy of the eight hours system of labor and his unswerving devotion to the interests of the working men, irrespective of race or color. Mr. Phillips, however, made his acceptance of the working men's nomination dependent on the indorsement of the Republican party. This he is likely to receive, and, as Mr. Rice has withdrawn from the field, it is almost certain that Mr. Phillips will be elected. The press, without distinction of party, indorse this nomination, on the ground that Mr. Phillips's eloquence, genius and services in the cause of humanity entitle him to a place in the National Legislature.

THE PRESIDENT AND OFFICE SEEKERS.—The President has decided that in consequence of the pressure of public business, he will hereafter be obliged to decline receiving any committees or delegations whose principal object is to present programmes for removals and appointments to office. All such business must necessarily be referred to the appropriate departments of the Government for attention.

DISCUSSION AT GREENSBURG.

Senator Cowan Vanquished.

There was an interesting meeting at Greensburg on Friday, the result of a challenge from the friends of Senator Cowan to discuss the political issues of the day. The Hon. Galusha A. Grow and Hon. Thomas Williams appeared on the side of the Republicans. Messrs. Cowan and Moore were on the opposing side. Notwithstanding the challenge came from their friends, the last named gentlemen manifested a decided disposition to back out, and finally came to the scratch with much reluctance. Cowan spoke fifteen minutes and was followed by Mr. Grow in a speech of an hour. Mr. Moore followed in a speech of the same length. Mr. Williams spoke for an hour, and Mr. Cowan followed in a talk of forty-five minutes, his allotted time being one hour. The Court House was filled with supporters of the two sides in about equal numbers. The Republicans claimed, and the better judgment of most of those present conceded them a decided victory. Mr. Cowan failed to come up to the expectations of his friends, and was generally voted vanquished.

In the evening our friends had a large meeting which was addressed by Thomas Marshall, Esq., and Hon. S. A. Purviance, which served to clinch the nail driven home during the discussion. It will be a long time, it is thought, before Mr. Cowan's friends make another challenge.

An Exciting Single Scull Race—Josh. Ward Beats Walter Brown.

In the Springfield, Mass., regatta, which took place on Thursday, there was an exciting single scull race, in which the ex-champion oarsman, Josh. Ward, vanquished Walter Brown, of Portland, by whom he has twice been beaten. The distance was two miles. The first prize was $150 and the second prize $75. There were five entries—"Angeline," New York, rowed by Joshua Ward; No name, Portland, Me., rowed by Walter Brown; "David R. Carson," Hudson, New York, rowed by John McKell, and the "T. F. Doyle," rowed by Foster Doyle, of Boston.

Brown was the favorite, bets of $100 to $50, and $1,000 to $500 being made on him against the field. Ward also had his ardent supporters, who were ready to stake their last dollar on the result. But Brown's victories over Ward at Worcester and Portland had given confidence to his friends, and large odds were given in his favor. The positions were taken by the contestants, Brown drawing the first place, Doyle the second, McKell the third, and Ward the outside. A fine start was made. Brown set off very confident, pulling his long swinging stroke, of about thirty-seven to the minute. Ward pulled the quickest stroke of all. When they passed out of sight around the bend, Ward was ahead. The result was hardly anticipated, but it proved that the Newburgh champion has not given up his position yet. Ward came in, pulling a slow stroke, in 15 minutes 59 seconds, followed by McKell, in 16 minutes ½ second. Brown fell so far behind as to give up the race, and did not make his appearance on the return. He had never before pulled in the boat used upon this occasion, and it is to its lightness that he attributes his defeat. Ward weighed, on entering the race, about 160 lbs., McKell 145, and Brown 149. Brown does not give up yet. He will soon make arrangements for a race with Hamill, and is confident that he can beat any man in America.

Seeing Things Not Darkly But Clearly.

The Utica *Herald* makes the remarkable statement in a recent article, that Secretary Seward said to a Union Colonel, after witnessing the popular sentiment at the West: "I would give my right arm, if I could be placed back to the 22d of February."

It is creditable to Mr. Seward's conscience and perception that he is thus moved. Not only the Secretary, it would seem, but the tenant of the White House, has had a vision, the meaning whereof is interpreted by the *Intelligencer*, his organ. It has a remarkably gloomy article bearing the pretentious caption of "*The delusiveness of great conventions and great gatherings. They are of no avail without organization or leadership.*" It speaks first of the McClellan-Chicago Convention as heaping burdens on the back of its candidate which destroyed him. It then declares that the August Philadelphia Convention, though great, did no real work at organizing, such as the Radicals show aptitude for doing. It then makes the following remarkable admission:

"Also, the vast gatherings at very numerous points in the North and West to welcome the President, will be interpreted by those especially who are not thoroughly versed in the subtlety and secret springs of Northern politics, as a sort of infallible sign that nearly all the people are in favor of the policy of the administration. *Herein is an error that may work mischief.* The mass of the people of the North have been accustomed to turn out to see and honor the Chief Magistrate," &c.

The article proceeds in a labored strain to show that the Republicans turned out to honor the Presidency—a sort of Gessler's cap salute, and with frankness that does credit to this interpreter of the signs of the times, confesses that "nevertheless when the election comes off, they will mainly *vote as they have been accustomed to do.*"

LATE NEWS ITEMS.

There is a cholera panic at Nashville. The city is almost depopulated, the citizens having left to escape the epidemic. Cases of cholera are also reported in other parts of Tennessee.

The Chicago *Journal* of Saturday evening says: There was another frost last night. We publish dispatches from various parts of the Western corn region. The accounts of damage to the corn crop are conflicting, but the prevailing opinion among experienced farmers appears to be that no serious harm has been done as yet.

There was considerable excitement in the corn market this morning, owing to reports of another frost last night. The market opened at an advance of 3 to 4 cents, but subsequently fell back to yesterday's prices. Wheat, to-day, is 2 to 3 cents higher, and rather firmer. Oats are ½ cent higher. Rye 2 to 3 cents higher.

Practical farmers assure us that one or two frosts, if they do not come too early, hasten the ripening of the corn, and that, at the present advanced state of the crop, it is almost impossible for the frost to cause great danger. This will, we think, turn out to be the case in the present instance.

In consequence of the damaged railroads, the Ohio State Fair, to be held at Dayton, has been postponed till October 16th.

The meeting then adjourned.

MAN KILLED IN WEST PITTSBURGH.—Coroner Clawson held an inquest yesterday on the body of a man named John McNamara, who was killed by falling from the bridge over Saw Mill Run, in West Pittsburgh, on Saturday evening. About dusk the deceased, while intoxicated, attempted to cross the bridge and fell through. He was observed to fall by a boy, who called for assistance, but when picked up the unfortunate man was found to be dead. The Coroner's jury returned a verdict accordingly, and ordering the authorities or proprietors of the bridge to have the bridge repaired immediately. The deceased resided in Temperanceville, was forty-five years of age, and leaves a wife and six children.

RAILROAD ACCIDENT—A PITTSBURGHER INJURED.—Yesterday morning a passenger car attached to a train on the Beaver Valley Railroad, coming to this city, was thrown off the track a short distance east of New Castle, by one of the wheels striking a raised rail. Several of the inmates of the car were injured, among others, Henry Kane, Esq., of the firm of Kane & Duffy, Merchant Tailors, on St. Clair street. Mr. Kane was brought to his residence in this city, where his injuries were dressed by Dr. T. W. Shaw. His injuries, although severe, are not dangerous.

DIED FROM INTEMPERANCE.—Coroner Clawson held an inquest on Saturday on the body of Wm. Thomas, a resident of East Birmingham, who died suddenly of intemperance at a tavern in that borough. A verdict was rendered accordingly. The deceased was about fifty years of age, and leaves a wife and two sons.

ALLEGHENY COUNTY FAIR.

Fourth Day of the Exhibition—Improvement of the Weather—The Last Day.

The sun shone out bright and clear on Saturday, and in consequence the number of visitors at the Agricultural Fair was much larger than on any previous occasion since the opening of the Exhibition. The managers appeared to derive a new hope from the improvement in the weather, and as the exposition will be continued to-day, it is probable that an amount sufficient to save the Society from ruin, will be realized. The race-course is in a tolerably good condition, and several trials of speed may be expected this afternoon. The exhibitors have done all in their power to render the Fair attractive, and appear satisfied to permit their wares to remain upon the ground for any period that may be decided upon. We append a few brief notices of the leading features of the Fair:

WHEELER & WILSON'S SEWING MACHINES.

The interest evinced in this unrivaled machine since its introduction to the Fair cannot but be highly satisfactory to the agents, Messrs. Sumner & Co., No. 27 Fifth street. It is the pioneer machine, and having had all the recent improvements added to it, is now acknowledged to be without a superior. As an illustration of the success which has attended these machines, we might state that during one year the sales increased from seven hundred and ninety-nine to forty thousand; and in 1865, the sales amounted to over one hundred and twenty-five thousand. These facts speak for themselves, and show conclusively that Wheeler & Wilson have succeeded in satisfying the community with the excellence of their improvement. Persons desiring to purchase this first class machine can do so by calling upon Mr. Sumner, at his excellently furnished rooms on Fifth street.

PHOTOGRAPHY.

Mr. Wm. H. Whitehead's exhibition of photographs is truly magnificent, and proves beyond all cavil that Pittsburgh is not behind any city in the Union in this department of art. The beautiful specimens of photographs, colored in oil and India ink, elicit admiration from every visitor. Mr. Earle, who is employed by this establishment, to color photographs, is unquestionably an artist of decided merit, and already occupies a front rank in the profession. The plain photographs exhibited by Mr. Whitehead are also of unusual excellence. A groupe picture of the managers and employees of the Union Transportation Line is much admired for the truthfulness of the likeness, and the taste exhibited in their arrangement. Mr. Whitehead's rooms are at No. 70 Fifth street.

FINE IMPORTED POULTRY.

Visitors should not omit to examine the excellent specimens of Creve Coerir fowls, imported from France by Mr. William Bingham, Jr. These represent a variety, of which there are very few in this country, and the poultry fanciers in this section of the country are indebted to Mr. Bingham's enterprise for their introduction. They are said to surpass all former well-known varieties in the laying of eggs, and have no equal for table fowls.

EMPIRE SEWING MACHINE.

Messrs. Carson & Brothers, the agents of the Empire Sewing Machine, give very interesting displays of the general utility of this machine, at their neat and tastily arranged stand in the upper end of Domestic Hall. One peculiarity of this machine is that it works perpendicularly up and down, the needle being straight. Its action is noiseless, and it operates with great speed. In order to test its simplicity, two little girls of about twelve years of age, operate on these machines to the entire satisfaction of visitors. Messrs. Carsons receive orders at the Fair, but their rooms are at No. 20 Fifth street.

PENMANSHIP.

The specimens of plain and ornamental penmanship and pen-drawing exhibited by Prof. Cowley, are well worthy of mention. The Professor has acquired an enviable reputation as an accomplished and expert penman, and has probably instructed more persons in the art than any other Professor in the country. He has been connected with the Iron City College for some years, and its prosperity and success is due, in a great degree, to his efforts.

PITTSBURGH CUTLERY.

The samples of fine cutlery, manufactured by the Pittsburgh Cutlery establishment, and exhibited by Mr. Wm. N. Ogden, agent for this city, are unrivaled for beauty and excellence. The display of pocket knives is unusually fine, and embraces half a dozen, superbly finished, which were ordered by residents along the line of the Pittsburgh, Fort Wayne and Chicago Railroad as presents to conductors on that road. The works have only been in operation for a few years, but already their manufactures have earned a reputation second to none in the world. Mr. Ogden has disposed of a large number of pocket knives during the Fair to persons who are desirous of having in their possession such rare specimens of American skill and enterprise. Mr. Ogden's establishment is at Nos. 67 and 69 Fifth street.

Second Ward, Allegheny, "Boys in Blue."

An adjourned meeting of the "Boys in Blue," of the Second ward, Allegheny, was held in the School House, on Saturday evening. In the absence of the President, Vice President Major Tyler in the Chair.

The minutes of the last meeting were read and adopted. Reports from Committees being in order, the report from the Committee on Finance was read and accepted, and a vote of thanks given Major Harris for his successful endeavors to place the organization in a condition to make a creditable display on the evening of the 25th.

On motion, sixty members of the "Boys in Blue" of the Second ward, is a Committee to canvass the ward, in order to ascertain how many soldiers can be accommodated by the citizens of this ward, and report the names and number each can accommodate.

On motion, adjourned to meet at the School House, on Monday evening.

The delegates of the Second ward, Allegheny, are requested to meet at 12 A. M.

By order of Captain W. E. STEWART.

County Executive Committee—Demonstration To-Morrow Night.

A meeting of the County Union Republican Executive Committee was held on Saturday afternoon at the office of Wm. Owens, Jr., No. 147 Fourth street. The Chairman, John W. Riddell, Esq., presided, and Col. T. M. Bayne officiated as Secretary.

A communication was read from the Soldiers' and Sailors' Resident Committee, inviting the Committee to take part in the demonstration of Tuesday evening. The invitation was accepted.

On motion, it was ordered that five thousand torches and two thousand Chinese lanterns be purchased for rendering the grand torchlight demonstration of Tuesday night, to be used by the delegations in this county not already provided for, and by other delegations from abroad.

After the transaction of some miscellaneous business, the Committee adjourned, to meet again at the same place, this afternoon at two o'clock.

DECORATE—ILLUMINATE.—Our neighbor Pittock, has disposed of nearly fifteen thousand Chinese lanterns and innumerable flags, of all sizes, within the past few days, from which fact our readers may have some idea of what the welcome demonstration of to-morrow evening will be. He has a source of inexhaustible supply, and can furnish all who may yet call upon him for either flags or lanterns.

JANGLING AMONG THE COALITIONISTS.

The coalition formed in Philadelphia proves to be a loose and flabby affair. As long as it played a silent pantomime, the thing looked interesting and pretty, but as soon as the parties, squeezed together under the rule of silence, separated and began to speak according to their real impulses, the deceptiveness of their ostentatious union was destroyed, and they are already by the ears with each other, with as much zeal as they pledged in Philadelphia against the Republican party.

It is a fair and safe rule in business, and no less so in politics, that when partners cheat one another they cannot be trusted by outsiders. This is the case with the coalition. The mute and meek delegates in the Convention, from the Southern States, did not wait long enough to reach their homes before the telegraph began to labor with their apologies and explanations, to satisfy their constituents, if they had any, that notwithstanding their silence they were all right on the old question of Southern rights, and the new question of rebel soldiers and the Confederate debt. The Northern Democrats, too, have bolted from their engagement to sink their party name and seperate interests, and, whenever they think they can safely do it, are rather disposed to absorb the small company of backsliding Republicans than to unite with them. This is illustrated on a small scale in many neighborhoods. But in the Empire State, the exhibition is conspicuous. There the Republican element in the loving Philadelphia meeting and their entire constituency, are treated with the most undisguised contempt by the Democracy in its reasserted supremacy. We find in a leading Democratic organ the following gentle expressions—curious echoes of the Philadelphia love and union strain—"the entire followers of Mr. WEED do not number five thousand in the whole State." They are spoken of as Mr. WEED and "his cab load of associates," as "a little squad of office holders that talk JOHNSON," and as only sure to "weaken and injure any party that tolerates their fellowship." It is further alleged, "we know that their numbers and influence were of very little account," but it is considerately added, in view of the position, condition and desperate chances of the Democracy, "but we considered their help worth having." And so, from a sheer sense of meekness and fear of utter defeat, even for as small a chance as five thousand votes might give the shattered Democracy, it is asserted, "the Democratic party" (the great National Union party being already repudiated by its largest element) "*gave* the nomination of Lieutenant Governor to their associates"—otherwise designated "our treacherous allies."

In the experience of such a serious after piece, to the Philadelphia farce, Mr. Weed's "cab load" do not find either the joy or hope, inspired at Philadelphia, very substantially supported. They find that they have rejuvinated the old Democratic party only to be trodden under its feet, as a foretaste of the lot that both will receive from the honest and consistent Republican party at the polls.

What will become of the leaders of the inconsiderable defection from the Republican party, that has been lured into this pitiable position by the savor of Executive patronage, we are not able to divine. An honest and speedy retrogression to their former political ground might save them, although their present associates illustrate their position and feeling in that case, by comparing them to those of "a stray dog in a ten-pin alley." But, evidently, any of the people who may have been inclined for any reason to follow their guidance, could not do a wiser thing than to resume their position firmly and at once on ground that they have hitherto occupied and that is destined to be the victorious ground. In the Republican Union Party, the loyal people have had honorable triumphs in the suppression of rebellion, the maintenance of the Union and the advancement of liberty. Those who may foolishly forsake that party will sacrifice their share of the enduring honor of those triumphs, and embrace the jeers of their new associates which already alight upon them, and will after the impending defeat be ripened into contempt and hatred. What is so openly avowed in New York, is the real feeling in every place. There is mutual distrust between the parties in this coalition, and this distrust is not only well founded, but is active in efforts to overreach each other. The Republican ground, on the contrary, is the well known ground that supports the Union, loyal ground, that of the Constitution, that of just representation and universal freedom.

A PROBLEM.

Should the executive individual, according to his intimation in his Pittsburgh speech, take his "stand in the door of the legislature and forbid all its proceedings till the voice of the people should be heard," how long would he have to wait in that unprecedented position? The question is as yet a merely speculative one, and raised on the extremely speculative and critical notion broached by the "humble individual," that he is *the* representative of the people, and not Congress, as is generally supposed. As the National Legislature is not now in session, the question of how long the executive might hold the forbidding and forbidden attitude towards the legislature cannot be decided, in fact, before the first of December. This may prove a happy circumstance for the executive, and perhaps the "voice of the people" may be heard so decidedly before that date, as to deter him from submitting his new and extraordinary theory of republican government to the test of experiment.

ONE of the President's dispatches to his Provisional Governor of Georgia was in these words:

"The President of the United States cannot recognize the people of any State as having resumed the relations of loyalty to the Union that admits as legal obligations or debts created in their name to promote the war of the rebellion."

In the face of this South Carolina has persisted in declaring her rebel debt sacred, and has up to this time refused, has his way, continue to refuse, to repudiate it. But taking the above dispatch as containing his honest sentiments, if he has any, how can he recognize the loyalty of the people of that State? How was it possible, with a knowledge of that dispatch, to blubber as intensely as he did when he read the account of the disloyal Governor of disloyal South Carolina and the dapper little fellow from loyal Massachusetts, entering arm in arm into the Philadelphia Convention? Did he weep because such a humiliating disgrace was attempted to be cast on Massachusetts?

WHICH CONGRESS?

This is a most pertinent question, and should be propounded to every JOHNSON candidate for Congress. It is time to learn from these men as members for which Congress they are candidates. President JOHNSON has denounced the present one an "unconstitutional and illegal Congress," and if its members are returned, as they assuredly will be, we suppose that the next one will not be a whit more constitutional and legal. The JOHNSON candidates everywhere shout themselves hoarse over the Constitution, and as they take their inspiration from the President, we ought to know whether they are candidates for the body he denounces or the one he proposes to recognize.

The Hon. E. B. WASHBURNE, of Illinois, has been invited by his JOHNSON competitor to a public discussion of the political issues, and before taking up the guage of battle he demands to know what Congress his competitor is a candidate for. For himself he is a candidate for the Congress that will be called to order by the Clerk of the present House, and not for the Congress the President has avowed his intention to recognize, and demands that his competitor places himself clearly on the record, in order that he may know that they are both running for the same office. Let the people put the same question to every such candidate. We have already addressed the inquiry to the opposition candidate in this district and we pause for a reply.

THE EVENT OF THE WEEK.

In many of the churches yesterday appropriate reference was made to the assembling on Tuesday of the Soldiers' and Sailors' National Convention, and the Divine blessing was invoked upon its members and their proceedings. In the Fourth U. P. Church, Allegheny, Rev. C. A. DICKEY read a notice from the "Boys in Blue" of the Second Ward, requesting the members of the congregation to throw open their doors to the soldiers and sailors in attendance at the Convention. The people are with the defenders of the country in this peaceful but highly important campaign, and will provide for their comfort while with us to the best of their ability.

THE PROCEEDINGS.

Will the Committee having in charge the erection of the building on the West Commons for the use of the Soldiers' and Sailors' Convention see to it forthwith that proper accommodations are made for the reporters of the press? There will be one hundred and fifty representatives of the press in the city, a great number of whom arrived yesterday, and as it is the intention to report the proceedings in full, the most ample facilities should be extended. The accommodations should be provided to-day, as early as possible.

FELLOW CITIZENS.

Let each man or head of a family, who favors and indorses the reconstrustion plan of Congress, who believes that traitors should be punished and patriots rewarded, and who believes in maintaining the reputation of our city for hospitality, consider himself a committee of one on subsistence, and proceed to City Hall during the convention, and from thence take to his table as many soldiers as he can entertain. The hotels and restaurants will be unable to provide for one-half the soldiers and sailors who will be here. Let all who can hang out their latch string.

WHICH IS RIGHT?

By article first, section two, of the Constitution of the United States, the three-fifths slave representation was allowed. In other words, by the census of 1860, 3,940,511 slaves in the fifteen slave States are counted as 2,370,900 whites in electing members of Congress and Electors of President and Vice President. This gives these fifteen States nearly nineteen members of the House of Representatives, though in MCPHERSON's manual of 1866, only eighteen are put down as elected. Now the adoption of the constitutional amendment abolishing slavery, if left alone, would give to the African race in this country as follows: Emancipated slaves, 3,950,531; free colored, 476,636; total 4,427,167; or, thirty-five members of the National Congress, and thirty-five electoral votes for President and Vice President.

The second section of the proposed constitutional amendment upon which the people are to pass at the ensuing election, declares that where the right of suffrage in any State is withheld from any race, said race shall not be counted in the basis of Congressional representation. If the African race in all the States were excluded from voting, then the thirty-five Representatives would fall off and be apportioned among the 26,690,000 white inhabitants, as ascertained by the census of 1860. Of the African race 4,200,000 were in the fifteen slave States, and only 226,000 in the nineteen free States. The States south of Mason and Dixon's line would lose thirty-three members of Congress and the Northern States only two of the thirty-five.

The three-fifths slave representation was one of the concessions to slavery, and when that fell of course all its incidents should have fallen with it. It would be an enormous abuse of all propriety and a grievous wrong, if the gigantic efforts of the loyal men of this nation should after all increase the political power of the rebel States, by adding thereto fifteen additional members of Congress and electors of President and Vice President, on an unfranchised population.

Let us illustrate this by taking the actual votes at the North and South. Taking the tables of the votes and population of 1860, we find that the average in the North of the votes are about 22,000 to each district—the highest running to 36,000 to a district and the lowest to about 14,000. The average of the Southern States falls below 15,000 to each Congressional district—the lowest, in North Carolina, being under 7,000 to a district. Some individual districts in the South are much lower,—take for example the following in South Carolina:

District.	Whites.	Voters.
First	28,671	4,500
Second	41,766	7,000
Third	49,635	7,900
Total	120,072	19,400

The ratio of representation is 127,000, yet the above three districts together have not that aggregate of white inhabitants. In planting districts of the South others equally striking might be named. Of course in all these the ratio is made up by slaves.

Now in the 22d district of Pennsylvania the population of 1860 was about 132,000, in the 23d about 123,000. The number of votes polled in each was fully 25,000. Is there an intelligent man here who is willing that each rebel voter in South Carolina shall wield more than three times as much power in all Congressional and Presidential elections as his own loyal vote? And yet that is just what the opponents of the Constitutional Amendment contend for.

ENTERTAIN THE HEROES.

Our citizens have, with their accustomed spirit of hospitality, signified to the Resident Committee at City Hall that they will entertain our soldier-guests during the Convention which meets to-morrow. It is evident that there will be a larger claim upon our hospitality than has ever been made before. It is highly desirable, for the credit of the community, that every accommodation, consistent with the means of our citizens, should be provided the soldiers and sailors about to assemble in our midst, and it is requested by the Resident Committee that those prepared to entertain the strangers should to-day leave their names and places of residence with Major WM. MOORHEAD, and Segeants R. D. BAKER and I. H. KERR, at City Hall, or with Major W. W. BARKER, at No. 12 Fifth street.

THE New York *Commercial* does not believe the President, in any event, will attempt to carry out his revolutionary threat in regard to Congress. It concedes, however, that his declarations are well calculated to create alarm, and should awaken the people to their duty at the coming elections. In large majorities is perfect safety. Should, however, a *coup d'etat* be attempted, the *Commercial* thinks General GRANT "would not hesitate for a moment to use his power in the defense of that body which brought the war to a close, assigned to him his present rank, and is now the recognized Congress of the United States."

WE, THE PEOPLE.

The title of the Constitution should be sufficient to satisfy Mr. JOHNSON of the utter unsoundness of the radical and revolutionary theory, that he broached in his Pittsburgh speech. It recognizes and claims Congress to be the representative and embodiment of the people: "We, the people of the United States do ordain and establish this Constitution for the United States."

The Convention that framed the Constitution also recognized Congress as the representative of the whole nation, by resolving "that the preceding Constitution be laid before the United States in Congress assembled," &c., and by submitting it accordingly, "to the consideration of the United States in Congress assembled." Both acts were signed by GEORGE WASHINGTON, who was reckoned a good authority in those days.

And the first section of the first article of that Constitution should satisfy Mr. JOHNSON that he is not authorized to stand at the door of the Legislature and forbid all its proceedings, as his new theory proposes: "All legislative powers herein granted, shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives."

If all this does not satisfy Mr. JOHNSON of the revolutionary character of his theory for stopping the business of legislation, he may consider further, that Congress existed and adopted the Constitution before there was a President, and still further, that in a contingency, such as has happened more than once, it devolves on Congress to elect a President.

In view of all these things, we hope Mr. JOHNSON will not think it best to take his stand at the door of Congress to forbid all its proceedings, as it would, in the eyes of the people, have very much the appearance of an intolerable usurpation.

GENERAL INTELLIGENCE.

Three East Indiamen have arrived at New York with valuable cargoes of teas, silks, rice, etc., namely, the ship George Greene, from Batavia, May 5; ship Goshawk, 137 days from Calcutta, and bark Finzel, from Shanghai, April 18.

According to the *Nord*, England is most anxious that the Pope should take up his residence in the Island of Malta. It says: "The idea of the flight of the Holy Father to Malta seems to have many adherents among Roman Catholics, and even in the Papal Court."

Mr. William Cameron, of Petersburg, Va. just returned from abroad, brought home a pair of ostriches, which he turned loose upon his lawn. The *Index* says: "Two interesting colored children and several pigs are missing since," and adds: "The inference is painful, but, as journalists, we are bound to state facts as they occur, or at least as they seem."

A Fortress Monroe letter says: Bishop Greene and the Rev. Mr. Kelly, it is understood, have given up their idea of proceeding to Washington to confer with the President in relation to releasing Mr. Davis, the President having, through the counsel of Mr. Davis, expressed his inability to assume the responsibility of paroling him under the charges contained in the bill of indictment brought against him by the Grand Jury of Virginia for treason, and the evidence adduced by the Congressional committee of his complicity with the assassination of President Lincoln, which rendered him amenable for trial both by the civil and military authorities.

In New York Thursday was opening day with the fashionable milliners, but the inclement state of the weather had the effect to keep customers at home. It may interest the lady readers to know that most of the round hats are turban shape, which is becoming to only very youthful faces. One of the most *distingue* consists of a single piece of white satin, shirred over a Catalan frame, with a purple velvet wreath ornamenting the edge. The Pompadour is another novelty. This is made of black velvet, with a point in point, and one at each side. A wreath of white flowers ornaments the edge. Prices take a wide range—all the way from $10 to $50. It may be added that water-falls are now voted vulgar, and that curls and puffs only are *ton*.

The hotel bills of the President's excursion party at Springfield, Ill., are still unpaid, and the landlord is looking anxiously around for some one to settle them. The city authorities, having declined to invite or welcome him, do not consider themselves responsible; the supporters of his policy in the place have not raised money enough to meet the demands of the innkeeper, and unless he is soon satisfied he proposes to send his amount to Washington for payment. At Pittsburgh the committee of the President's friends drew on Washington for the balance,—the draft was protested, but subsequently arranged. They were not so sharp in Illinois.

Bishop Hopkins, of Vermont, reports in his annual address, "that the Theological Department of the Vermont Episcopal Institute is without students. The Treasurer also says in his report: 'There are no young men in the diocese looking forward to the ministry, or preparing to enter it.'" What other result could have been expected, after the Bishop having arrayed himself against the liberal and enlightened moral sentiment of the age? It is no wonder that the young men of his diocese turn away from his ministry. It is a healthy sign that they do.

The Board of Health of New York, having pronounced against the policy of permitting slaughter-houses to remain in that city, large abbatoir buildings have been put up at Communipaw bay, New Jersey. These buildings have been inspected and pronounced complete. The slaughter house has facilities by which twelve hundred bullocks, three thousand sheep and fifteen hundred hogs can be slaughtered daily. There is a very large ice house for storing meats, and also large tanks, engines and machinery for the melting of fats, storage of hides, and other arrangements which assist economy and cleanliness.

The Brazilian ostrich which Professor Agassiz brought home with him, and which has been for several weeks domiciled on the Common, has just died, the change of climate or diet proving fatal to it. The herd of deer quartered in the same place seem sleek and contented, prosper and multiply very satisfactorily, and are a never-failing source of interest and amusement to the children who make the Common their playground.

Louisville and Cincinnati were visited on last Friday night by a slight flurry of snow.

The late storm has been very damaging in Southern Ohio. Millions of dollars worth of property was destroyed. Several of the towns had to be navigated on Friday by small boats. Nearly all the railroads have been repaired and cars running again.

The Corn Crop and the Frost.

The Chicago *Republican* and *Tribune* of Saturday last, publish despatches from nearly all portions of the Northwest, with regard to the frost which took place on Thursday night, and its effect on the corn crop. The frost seems to have been most severe in the strip of territory embracing the Dixon Air Line and the Chicago, Burlington and Quincy Railroads, but even there some places seem to have escaped entirely. The frost was generally very light, and only in a few localities do the despatches show that damage was really done. In these few localities, however, it was very severe, as for instance at Peru, Illinois, the ice froze a quarter of an inch thick, though the early corn is pronounced out of danger. At Dwight, Ill., the frost is pronounced heavy and much damage done. At Pontiac, Ill., the leaves of the corn were frozen, and the late corn injured severely. At Belvidere, Ill., ice formed a quarter of an inch thick, and one half the corn crop ruined. At Mendota and Palo, Ill. the frost was severe and the corn injured. At De Kalb, Ill., some damage was done. At Malden, Ill., about twenty-five per cent. of the crop reported injured. At Monmouth, Ill., there was some damage done. At Oak Hill there was material injury done the crop. At Bristol Station ice formed and the crop injured. At Altona Ill., corn on low grounds somewhat injured. At Arlington, Ill., the damage to the crop is bad.

The *Republican* has dispatches from fifty localities in Illinois, and the above are the only places named where it appears that damage was really done the crops.

In Iowa the frost has done some damage, but the dispatches show less severity than in the State of Illinois. Indiana and Ohio have fortunately escaped entirely.

In consequence of the reports with regard to the frost, the market for corn, in Chicago, advanced on Friday to sixty-three cents per bushel.

Pennsylvania State Fair.

The coming Pennsylvania State Fair, to commence at Easton, on the 25th instant, promises to be the best ever held in the State. The display of live stock of all kinds will be unusually fine, and a vast number of new and ingenious inventions will be exhibited. Over $10,000 will be distributed in prizes. Gen. Hartranft will have a feature at the Fair, consisting of his celebrated stock of fourteen thoroughbred Kentucky horses. These animals will be for sale on the last day of the Fair. An immense tent has been erected for the floral display. The horse department will be unexcelled, and as an *ensemble* the display will be something to be remembered. Railroads throughout the State will issue cheap excursion tickets, good for the continuance of the Fair.

Senator Sumner.

We see it stated that Senator Sumner did not appear at the late Boston Convention, nor at any of the gatherings which preceded it. Report says that he was too busy preparing for that interesting event which comes so much later in his life than in that of most men as to naturally cause more than usual perturbation. Certain it is, however, that he has found time to prepare an address of unusual power on the questions at issue between the President and Congress, including some remarkable revelations of the incidents attending Mr. Johnson's first determination to betray his party, which is to be delivered in Boston some two weeks hence.

POLITICAL.

Pennsylvania.

Governor Andrew G. Curtin will address the people at the following times and places:
September 25, Indiana, Indiana county.
" 26, Pittsburgh, Allegheny county.
" 28, Washington, Washington county.
September 29, Greenville, Mercer county.
October 2, Kittanning, Armstrong county.
" 4, Media, Delaware county.
" 5, Germantown, Philadelphia.
" 6, Union League, Philadelphia.
" 8, Manayunk, Philadelphia.

The Greenville *Argus*, which warmly opposed the nomination of Darwin A. Finney, Esq., for Congress in the Twentieth District, has at length run up the name of Mr. Finney at its mast head. The Crawford *Journal* is now the only recognized Republican newspaper in the district that withholds its support from Mr. Finney. The loyal men of the Twentieth District are determined that their differences about men shall not permit our enemies to triumph over principles.

John Frunkey, Esq., of Mercer county, has been nominated for President Judge in the Twenty-eighth Judicial District, composed of Venango and Mercer counties.

Dan Rice still remains on the Congressional course, and is now flooding the Nineteenth District with handbills and circulars, setting forth the advantages presented through the "People's Candidate." He understands the use of printer's ink. The contest will soon wax warm between the friends of Rice and the friends of Scott, the Democratic Johnson nominee, although the platform of the showman does not differ from that of the banker. Mr. Scofield, the Union nominee, will have little trouble in scoring two thousand majority.

The Union Republicans of the First District, Philadelphia, have nominated E. C. Knight, Esq., for Congress, in place of J. R. Syndall, Esq., resigned.

Hon. George F. Miller has been nominated for re election to Congress in the Fourteenth District.

MISCELLANEOUS.

Hon Henry C. Murphy has been nominated for Congress in the Second District of New York by the Democrats.

A dispatch from San Francisco says that the Constitutional Amendment passed the Oregon Legislature by twenty-five yeas to twenty-two nays.

James R. Hood, of Tennessee, has been appointed as secretary of the Territory of Colorado.

The President has appointed Andrew G. McReynolds U. S. District Attorney for the Western District of Michigan, and Jacob P. Leez, U. S. Marshal for the District of California.

The Buffalo *Commercial Advertiser*, hitherto a rabid bread and butter sheet, says: "We are forced to the conclusion that the trip was unwisely conceived, and still more unwisely carried out. We do not know from what source the idea emanated; but whoever is responsible committed a great blunder. It cannot be denied that the President is not as strong with the people as he was two weeks since."

There is trouble in the Conservative Johnson party in Baltimore. Great dissatisfaction exists in consequence of certain nominations, which the wire pullers have forced upon the people. As a general thing they are unworthy of being voted for, and many of them are very unpopular. So outspoken is the dissatisfaction, that the probabilities are that a straight out Democratic ticket for every office in the city, and members of the Legislature will be put out. This, of course, will annihilate the Conservatives, and cause many who might have supported them to go back to the unconditional Union party.

The indications are that the Unionists of Maryland will elect three out of the five Congressmen in that State, which will be a gain of one. The political contest, as the election nears, is becoming very fierce and bitter. The Union men declare their determination to prevent returned rebels from voting, even if they have to resort to arms. The feeling throughout the State in regard to Governor Swan's course, in reference to the appointment of Copperhead Registers, is intense, and bids fair to find a vent on election day, if the registered rebels present themselves at the ballot box.

Concerning the prospects in Maryland, the Baltimore *American* says: The opponents of Governor Swan will stand stronger in the next Congress than they do in the present. We have now two and a half members in the House of Representatives; in the next Congress we will have three as radically loyal as the Governor would have them radically disloyal. We will carry the Legislature on joint ballot certainly, and hope to have a majority in both Houses, thus holding in our control the United States Senatorship in any event.

In the Sixth District, N. Y., it is said to have been virtually decided, in the Democratic councils, not to nominate Mr. Raymond for Congress. Moreover, there is reason to believe that this conclusion is in perfect accordance with the anticipations of Mr. Raymond himself at the time his recent editorial slap at the Democrats for nominating Hoffman instead of Dix for Governor was written.

A Specimen of Mr. Johnson's Appointments.

[From the Morgantown Post.]

Mr. O. S. Long, editor of the daily Wheeling *Register*, has been appointed Postmaster at Wheeling, vice A. W. Campbell, removed.

In his paper of the 13th of March, 1865, Mr. Long spoke of Mr. Johnson as follows:

Johnson drunk is but Johnson sober with the mask on, at heart a boastful, low-bred, time-serving braggart; a brutal, tyrannical pimp of power.

Mr. Johnson is now the lick spittle of Andy Johnson in Wheeling.—*Wheeling Intelligencer.*

TENNESSEE.—Since the adjournment of Congress, the President's late Private Secretary, Colonel Edmund Cooper, Representative from Tennessee, has been busily engaged there, assisting and directing the organization of a movement which is, without doubt, intended to overthrow the loyal State government there. The disfranchised rebels and their allies are to elect delegates to a so-called constitutional convention, which is intended to put into operation the machinery of a State government.

"I HAVE been generally considered a Radical," said Mr. Johnson in a senatorial speech delivered in 1860. "I go for enactments by Congress and for *amendments* to the Constitution upon the principle that they are right, and upon no other ground." As Mr. Johnson "never deserted a principle," we suppose Congress has become entirely too Conservative for him.

"GENERAL" Custar on Wednesday received a package from Headquarters, addressed to "Colonel" Custar. It is said the contents did not add much to the joviality of the military politician, and he left the city at the first opportunity. Query: Did Colonel Custar, in that letter, get a hint as to General Grant's views in regard to army politicians?—*Cleveland Herald.*

THE EXTRA TRIBUNE FOR THE POLITICAL CAMPAIGN.

A political struggle, rarely surpassed in importance or intensity, has been precipitated on the country by the treachery of Andrew Johnson and some of his official or personal adherents to the great and patriotic party by which they were introsted in power.

The aim of this treachery is to put the steadfast loyalists of the South under the feet of the "whipped but not subdued" Rebels, and to enable the latter to glut their vengeance on the former, whom they hate and curse as being responsible for the unexpected overthrow of their darling "Confederacy."

The recent wholesale massacres at Memphis and New Orleans were but conspicuous manifestations of the spirit now rampant in the South, whereof the pro-Rebel triumph in Kentucky is a more recent example. The soldiers of Lee, Beauregard, Johnson and Hood are now the dominant power from the Potomac to the Rio Grande; they elect each other to office in preference even to stay-at-home Rebels; they have supplanted nearly all others as policemen of Southern cities; they are organized and officered as State militia; and they ruthlessly crush every demonstration of loyal Whites or loyal Blacks in assertion of the EQUAL RIGHTS of AMERICAN FREEMEN. The school houses of the Blacks are burned and their White teachers subjected to violence and outrage by unchanged rebels, who relieve the work of murder and arson by cheers for Andy Johnson, and execrations of Congress.

The purpose of forcing representatives of the Rebel States into Congress, in defiance of the loyal oath, by Presidential fiat and military power, is openly avowed, with threats that those who resist it shall be treated as rebels and a civil war thus kindled throughout the North and West.

It has thus become imperative that those who stand for LIBERTY and LOYALTY—for the right of the UNION to exist and of MAN to be FREE—should organize and work to strengthen the hands of CONGRESS for the inevitable contest before us.

We must convince the SOUTH and the COPPERHEADS that revolutions go not backward—that Emancipation is an unchangeable fact—that the CIVIL RIGHTS ACT can never be repealed—that the rights of the humblest AMERICAN are henceforth guaranteed and shielded by the FEDERAL CONSTITUTION, and must be maintained against all gainsayers—that the days wherein BLACKS had no rights which WHITES were bound to respect have passed away forever.

We hold to-day the power in the FREE STATES of 1860, in WEST VIRGINIA, and in MISSOURI beside. We must hold these in our ensuing elections, and add to them MARYLAND and DELAWARE—the former lost to us through treachery, otherwise Johnsonism. We must elect to the XLth Congress an overwhelming majority devoted to Loyalty, Nationality and the inalienable Rights of Man.

To this end, let Light and Truth be systematically diffused to every neighborhood, every fireside throughout our broad country.

To this end, we propose an extra issue of THE WEEKLY TRIBUNE (identical in size and contents with the regular edition), which we will supply on the following terms, the paper to be sent at subscriptions to commence on the receipt of the money:

WANTED.—AGENTS FOR THE PICTORIAL BOOK OF

ANECDOTES AND INCIDENTS

OF THE REBELLION;

Heroic, Patriotic, Romantic, Humorous and Tragical. Splendidly Illustrated with over 300 fine Portraits and Beautiful Engravings.

There is a certain portion of the war that will never go into the regular histories, and will not get embodied in romance or poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry reports or careful narratives of events, and this part may be called the gossip, the fun, the pathos, of the war.

These illustrate the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the pluck of our heroes, the romance and hardships of the service. From the beginning of the war the author has been engaged in collecting all the anecdotes connected with or illustrative of it, and has grouped and classified them under appropriate heads, and in a very attractive form.

The volume is profusely illustrated with over 300 engravings by the first artists, which are really beautiful; worthy of examination as specimens of art. Many of them are set into the body of the text after the popular style of Lossing's Pictorial Field Book of the Revolution. The book's contents include reminiscences of camp, picket, spy, scout, bivouac, siege and battlefield adventures; thrilling feats of bravery, wit, drollery, comical and ludicrous adventures, etc., etc.

Amusement as well as instruction may be found in every page, as graphic detail, brilliant wit and authentic history are skillfully interwoven in this work of literary art.

This work sells itself. The people are tired of dry details and partizan works, and want something humorous romantic and startling. We have agents clearing over $200 per month, which we will prove to any doubting applicant. Send for circulars and see our terms and proof of the above assertion. Address

THE GREAT STORM.—The Chicago *Tribune* says: For two months past Jupiter Pluvius has been raining down upon our devoted heads a considerable amount of blessing. During those two months—of sixty two days, beginning with the morning of July 20th, and ending last evening, it has rained thirty one days, or, on an average, every alternate day. The amount of rain fall during that period is most extraordinary, not paralleled in the history of our city, and, we believe, not in the annals of the West. Twenty-eight inches of rain have fallen in that time, two-thirds of the quantity which usually falls in the whole year in this city—the average annual rain being but a fraction in excess of thirty inches. Carry out the same ratio for the year, and it would give us a depth of ten feet of water all over the city.

JOLLY PARTY.—The York, Pennsylvania, *Democrat* says: The extra car in which the President and suite passed through this borough on Saturday morning, was divided into two apartments. In one, piles of champagne baskets were visible, and as the car passed along the track in the neighborhood of Lutz's Corner, twelve empty bottles were thrown out of the car and broken on the track. The Copperheads of the borough, we are told, furnished the party with an additional supply of liquors of different brands, which were placed in the car for their use between this place and the city of Baltimore. A more spirituous crowd has not visited our borough for many years.

DICKSON COUNTY,

AT

CHANCERY SALE.

In pursuance of decrees of the Chancery Court at Nashville, Tennessee, in the case of A. G. Stockard, Administrator, &c., vs. the Heirs and Creditors of James L. Bell, deceased, I will sell at public auction at the COURT HOUSE, in the city of NASHVILLE, on

The tracts of IRON LAND containing, together, 7,210 Acres, and known as the WORLEY FURNACE LANDS, lying on the Nashville and Northwestern Railroad, in Dickson county, about forty-five miles west of Nashville.

Worley Furnace was originally built in 1844, by Montgomery Bell, and it was run from that time until about 1859. There is an inexhaustible amount of the finest quality of ORE close to the Furnace, and the metal manufactured always commanded the highest price. Over Four Thousand Acres of the lands are heavily covered with fine timber, and the greater portion of the remainder is growing thickly with young trees, which will soon be suitable for coal.

The Nashville and Northwestern Railroad runs through the tract, making it within easy distance of Nashville. Any further information in regard to these lands will be furnished on application to the undersigned at Nashville.

THE TERMS OF SALE are One, Two and Three Years Credit, with interest from the day of sale. Notes required, with personal security, and lien retained. Sale free from redemption.

HARRISON STEAM BOILER.

No More Destruction of Life and Property by Steam Boiler Explosions.

Great Reduction in Price.

From the rapid manner in which the HARRISON STEAM BOILER is coming into use, but little need be said of its conceded merits. They may be summed up briefly as follows: Absolute safety from explosion, as it cannot be burst under any practicable steam pressure; less first cost; economy in fuel equal to the best in use; facility of transportation; it occupies but about one-third the ground area of ordinary boilers.

In consequence of the recent improvements in its manufacture, the above boiler can be furnished to the public at less cost than heretofore and is now much the cheapest article in the market.

The eminent engineers, Messrs. Wm. Sellers & Co., speak of the Harrison Boiler as follows:

OFFICE OF WILLIAM SELLERS & CO., Philadelphia, August 15, 1866.

JOSEPH HARRISON, Jr., Esq.—Dear Sir: We have your favor of the 9th instant, and may say in reply, that we have now had the "HARRISON BOILER" in constant use in our Works for nearly two years. It has given us great satisfaction. We consider it quite as economical in the use of fuel as any boiler we have used, or with which we are acquainted, and are assured that it is much safer than any Boiler made.

Yours, truly, WILLIAM SELLERS & CO.

CITY MATTERS.

Enthusiastic Meeting at Wilkinsburg—A Southern Loyalist Speaks.

One of the largest political meetings ever held in Wilkins township, took place at Wilkinsburg on Saturday evening. Alex. Gordon, Esq., of Swissvale, presided, assisted by a large number of Vice-Presidents and Secretaries. Mr. J. W. Pope, to whom the Union party will be largely indebted for the success of this glorious campaign against treachery and disloyalty, was present, and opened the proceedings with one of his inimitable songs.

Dr. Hawkins, of Tennessee, then addressed the meeting, giving a graphic description of the position of things in the South. He paid his respects to Andy Johnson, with whose antecedents he seemed perfectly familiar. Among other things, he said that in the Presidential campaign of 1860, Johnson stumped the South for John C. Breckinridge, denouncing the North in the most unmeasured terms, and declaring that the South never would and never should submit to the election of a sectional President like Abraham Lincoln. It was true that after the war commenced he took ground on the side of the Government, and for a while the speaker felt that he might be trusted; but now there was not a loyal man in the South who would trust Andrew Johnson. The Doctor closed with an earnest and impassioned appeal to the loyal citizens of Pennsylvania to see to it that General Geary be elected by an overwhelming majority. Upon this depended the very existence of the loyal people in the South, both white and black. If at the fall elections the Northern States sustained the policy of Andrew Johnson, the result would be the inauguration of another war in the South—a war of extermination against loyal men. He knew the fact that there was a conspiracy on foot in Tennessee, whose purpose was revolution. If the Northern elections went favorably to the conspirators they would overthrow the loyal State Government, and attempt to establish a rebel Government, which would differ from the "Confederacy" only in extent. Nothing could avert this calamity but a strong protest at the polls against "My Policy."

General Moorhead followed next with an unanswerable argument in favor of the Congressional policy of reconstruction, and a defense of his course on the tariff question.

Mr. Pope concluded the proceedings with another of his stirring ballads.

The meeting then adjourned with three rousing cheers for Geary and the whole Union ticket, indicating that this old stronghold of Republicanism will add largely to her old fashioned majority.

By the way, the "Boys in Blue," and citizens generally of Wilkinsburg, are making arrangements to attend the procession of Tuesday and Thursday in full force. A meeting will be held at Wilkinsburg School House this evening to complete the arrangements.

PITTSBURGH THEATRE.—Frank Mayo, the celebrated young California tragedian.

"Boys in Blue" of the Seventh Ward.

A meeting of the Seventh Ward "Boys in Blue," held in the school house, on Friday evening, was remarkably well attended.

Captain Jones, from the Committee on Music, reported that they had been successful in forming a drum corps for the use of the ward delegations.

Colonel Patchell reported that torches and sashes had been ordered, and would be ready by Monday.

On motion of Colonel James Patchell, the following committee was appointed to call on General Butler, on the occasion of his visit to the city this week, and request him to address a mass meeting of the Sixth, Seventh and Eighth wards: M K Moorhead, Hugh Young, Captain Wm Mays, W D Jones, Chas Keehoo, Mr. Johnson and C T Ewing.

A committee of three was appointed to attend to procuring transportation for the disabled soldiers of the ward, in the procession on the 25th and 27th. W J Moorhead, James Steen and Mr Stonds were named as the committee, and the names of all persons entitled to seats in the carriages on those occasions, were requested to be forwarded to the committee.

Captain C T Ewing then delivered an able address, which was received with considerable applause.

The Second Ward Glee Club sang several pieces with fine effect.

On motion, adjourned to meet on Tuesday evening, at six o'clock, to take part in the torchlight procession in honor of the Soldiers and Sailors' Convention.

FRANK MAYO in his great and original rendition of *Tom Badger*, at the Pittsburgh Theatre.

Enthusiastic Meeting in Elizabeth Borough.

The citizens of the township and borough of Elizabeth held an enthusiastic meeting on Thursday night last. The Hall in which it was held was filled to its utmost capacity, and the enthusiasm and good feeling very decided. The opening address was by Rev. Mr. Whitehead, and was to the point. General Moorhead followed, discussing at length the proposed Constitutional Amendment, the tariff and making a full and satisfactory explanation of his vote upon the Nova Scotia coal feature of it, and nailing to the counter the calumny circulated upon him for it, by the Copper Johnson organs of the city. It was well received, and will be productive of great good along the river and coal men of that vicinity. John M. Kirkpatrick, Esq., of this city, made the concluding speech, continuing until after ten o'clock, in a thorough and comprehensive discussion of the prominent features of the canvass, and concluded with a most eloquent appeal to the good citizens of Elizabeth to be true to their past history, and in this last great conflict between the genius of slavery and freedom, to strike for the right, as they had always done in times gone by. The meeting adjourned with three cheers for the State and County ticket.

FRANK MAYO, the distinguished young tragic and sensation artiste, at the Pittsburgh Theatre to-night.

Narrow Escape from Drowning.

On Saturday, owing to the heavy rise in the Allegheny river, the workmen engaged in extending the railroad bridge became alarmed for the safety of the piles driven into the bed of the river, between the first and second piers, and loosened a large raft of logs which had been moored above the bridge, for the purpose of towing it ashore. After the raft had been loosened, six men got upon it and floated down the stream. They were, however, unable to manage it, and, upon arriving at the Hand street bridge, the raft collided with one of the piers, breaking it to pieces. Five of the men saved themselves by climbing upon the pier, but the sixth was carried away by the current. He was a good swimmer, but was encumbered by his clothing to such a degree that he was unable to support himself, after being a few minutes in the water, and would certainly have drowned, had not his situation been noticed by two lads in a skiff, who pulled to him and lifted him into their boat, just as he was about to sink. The man was greatly exhausted, but he recovered in a short time after reaching the shore.

FRANK MAYO, will make his first appearance at the Pittsburgh Theatre to-night. Do not fail to see him.

Rare Sport on the Tapis.

The Annual Horse Exhibition will commence at Oakland Park on the 15th of October, and will be under the superintendence of Major H. B. Vanvoorhis. A number of celebrated horses have already been entered, among others Dexter, Patchen, Jr., Lady Sherman, Edwin Forest, Silas Rich and Panic. Mr. Wm. Hendrickson, one of the owners of Patchen, was in the city on Saturday, closed the contract with Major Vanvoorhis, and signed the articles. Magoozier, a well known pacing horse, owned by Messrs. Keys and Watson, of this city, has also been entered, and it is probable that he will contest Dexter and Patchen for a heavy purse on the 16th. This is the first time in the history of horse racing in this city that such a collection of noted nags has been entered, and the sporting men will doubtless attend the Fair in large numbers.

FRANK MAYO, as *Tom Badger*, in the great sensational drama entitled "The Streets of New York," at the Pittsburgh Theatre.

FRANK MAYO as *Tom Badger*, played by him one hundred consecutive nights at the Boston Theatre to crowded and delighted audiences.

RAILWAY ACCOMMODATION.—F. R. Myers Esq., General Ticket Agent Pittsburgh, Fort Wayne and Chicago Railway, announces that an extra accommodation train will leave Allegheny for New Brighton at 11:30 o'clock to-morrow night, in order to enable the patrons of the road to witness the torchlight procession in honor of the delegates to the Soldiers' and Sailors' Convention. The Leetsdale accommodation, leaving at 10:15 P. M., will be withdrawn to-morrow evening for this occasion only.

FALL AND WINTER CLOTHING.—The change in weather admonishes us that a change of raiment is necessary. Those whose wardrobes need replenishing will consult their interests by calling on Mr. R. B. Norris, merchant tailor, 75 Federal street, Allegheny city, and examining his stock. He has just received a large assortment of fall and winter woolen goods, of the most attractive patterns, which he is prepared to make up in a neat and fashionable manner. Mr. Norris makes perfect fits, and his goods may always be relied upon.

BOY INJURED—FALL FROM A BRIDGE.—A boy named Sharp, employed in working on the Railroad Bridge, over the Allegheny river, while carrying some rivets to workmen on the bridge, on Saturday, about noon, missed his footing and fell to the ground. He was taken to his parents' residence where he was cared for. His injuries are of a serious nature, and his recovery is considered doubtful.

COAL BOAT SUNK.—A coal boat, owned by Mr. Johnston, of Limetown, struck one of the piers of the railroad bridge over the Monongahela river, on Saturday, and sunk. The crew succeeded in effecting their escape.

ASTHMA.—A spasmodic affection of the Bronchial Tubes. "*Brown's Bronchial Troches*" will in some cases give immediate relief. For Colds, Coughs, and Throat Disease, the Troches have proved their efficacy.

"An old lady friend having tried many remedies for Asthma with no benefit, found great relief from the Troches."—REV. D. LETTS, Frankfort, Ill. e.o.d.&w.

Public Amusements.

OPERA HOUSE.—Manager Hess announces this as positively the last week of the popular Barney Williams and wife, whose performances last week were witnessed by crowded and delighted audiences. A new play, entitled "The Coonie Soogah," is announced for performance this evening.

THEATER.—Mr. Frank Mayo, the young California tragedian, will make his first appearance on the Pittsburgh stage, at the theater, to-night, selecting for his initial performance the character of "Badger," in the "Streets of New York." He comes hither with an excellent reputation, and will doubtless be greeted by large audiences during his brief stay.

THE VARIETIES.—Messrs. Smythe & Aims announce as their star for the week, the "great Carleton," whose performances are excellent. The model Variety troupe will also appear each evening of the week in choice songs, dances, &c.

S. B. HOWE'S EUROPEAN CIRCUS.—By the attractive advertisement in another column, it will be seen that S. B. Howe's extensive Circus Company will perform in Allegheny City, four days this week, commencing on Wednesday, and giving two performances daily. This will form a pleasant relief to the excitement attendant on the Convention, and as the reputation of Howe's Circus is fully established, there is no doubt but that it will meet with liberal patronage. There will be a grand procession on Wednesday morning in Allegheny City, and one on Thursday morning through some of the principal streets of Pittsburgh. This procession will be a grand affair.

FINANCE AND TRADE.

SATURDAY, September 22—P. M.

New York dispatches received to-day show a decline of one-eighth per cent. each in gold, Eighty-ones, old and new Five-twenties, and in the Seven-thirties, as compared with yesterday's quotations. In the railways the decline is more marked. Michigan Southern fell off a quarter, Cleveland and Pittsburgh five-eighths, Fort Wayne a quarter, Erie seven-eighths, Chicago and Rock Island a quarter, and so on through the list. Great interest is still manifested at the Mining Board in Gold stocks. Consolidated Gregory sells largely at $17 20, regular, and $17¼, buyer 30; Rocky Mountain $7 45 to $7 65. Bennehoff Run, among the Petroleums, is firm and advancing. Sales to-day at $6 40.

—The local money market has ruled more easy during the week, and most paper offered of a good class was taken at moderate rates. All the discount houses are exceedingly careful, and none but well known names pass. There is, however, a good deal of paper placed at a heavy discount when the risk requires some collateral backing. The trade of the week has been materially interfered with by the unpleasant weather. The Wood street houses have done rather a slim business in consequence of it.

—In Philadelphia according to the *Ledger* the fall trade seems to be fairly inaugurated, and both in dry goods and general merchandise there is a good business doing, although in some few cases at a small concession in prices. The demand from the inland cities keeps up wonderfully, and, as our hotel registers show, there are a large number of buyers in the market. Much of the business doing is to buyers from the comparatively small towns. Leading merchants apprehend, with the present activity in trade, that the market will soon be nearly or quite exhausted of the leading and most desirable styles of goods. If this apprehension is realized, an advance of prices is inevitable. Manufacturers and agents are quite jubilant, especially those who have stocks of favorite styles of goods ready for the market, in the face of the advance in cotton at Liverpool. This advance of our staple abroad and a firm market at home will not be without some effect in stiffening the money market.

—The act of Congress of 1862, authorizing the issue of five hundred millions of five-twenties at an interest of six per centum, payable in coin, covers the first series, or old five-twenties. Mr. Chase, when Secretary of the Treasury, was asked whether the *principal* of these bonds was payable also in coin. His reply was that the United States will not depart from the general usage of other Governments unless some calamity occurs which cannot now be foreseen. The custom referred to is that of paying all national debts in gold. The acts of Congress with regard to the issues of '64 and '65 empowered the Secretary of the Treasury to issue five-twenty bonds *redeemable in coin* at the pleasure of the Government after five years. Though this provision does not appear upon the face of these bonds, it is precisely as binding as if it did. The next Congress will consider the plan of guaranteeing the payment in coin of all five-twenties.

—Copper stocks do not show any very remarkable change. Quincy declined $1½ on the news that the mine produced 120 tons last month. (The query has been raised—what would it be likely to sell at if 200 tons per month were got out?) Franklin [illegible] better than yesterday P. M.; Bay State advanced [illegible]; Hancock dull at 20½, but closed at 20½, with a better feeling; Huron steady at 4½, and Isle Royale at 13½; Minnesota declined ¾; "Boston Mining," which sold yesterday at 57½c, improved to $1¼, 100 shares sold. At the open board Water Power declined ¼. Pewabic Copper sold at 31½, an improvement of ¼. There was some life in stocks, but the general impression being that an active market is not at hand.—*Boston Post, Sept. 21.*

—The manager of the Bank of Upper Canada, recently "gone under," sets forth a statement, in which he places the official figures of the liabilities of the bank at $2,700,000; assets, $4,000,000; $1,200,000 are due the Government; due the public, $750,000; current accounts, $350,000; deposit receipts, $350,000; coin and bullion on hand, mostly copper, $100,000; real estate owned, $1,750,000; good debentures, $195,000; notes and checks, $70,000; notes and bills discounted, $2,500,000. At a meeting of the holders at Toronto, on Thursday, it was proved that the public would not suffer, but the stockholders, in the failure of the bank, have. The bills of the bank, held by private individuals, will be redeemed by the Government.

—The Producers' Bank, of Chicago, owned by Harvey Doolittle, suspended on the 19th. It was a State Stock Bank, with an outstanding circulation of $5,000, secured by stocks deposited at Springfield.

WEEKLY REVIEW OF THE OIL MARKET.

[Pittsburgh Commercial's Report.]

MONDAY, September 24, 1866.—The following are the receipts of oil by the Allegheny, Monongahela and Ohio rivers, and the various Railroads for the past week; also, from the 1st of January, with a comparative table for the same period in 1865:

	Rivers.	Railroads.	Total

Since January 1	734,405	279,208	1,013,733
Total to Sept. 22	767,961	290,424	1,058,385
Same time 1865	356,083	154,419	510,464
Increase in 1866	411,878	136,005	547,921

The business of the week was not large. The market has been in a very unsettled condition; prices of Crude were irregular, and buyers seemed to have made up their minds that a rise of water was at hand; that the receipts would be large and prices would be lower. Their views of the market were correct; all have been verified, and prices have declined materially. The following are each day's transactions: Monday—The Crude sales were 2,951 barrels, in lots. The rates were 15, 15½@15¾c; packages included, 21c. Refined—The market was dull during the forenoon. Later in the day buyers entered the market and 2,000 barrels were disposed of at 43¾@44c, Philadelphia, immediate delivery. There was no demand for Free, and prices were nominal. Tuesday—The receipts of Crude were on the increase, and the market appeared weak. Sales 2,070 bbls. The rates were 14¼@15c according to gravity, and 20c including barrels. Refined—The market continues dull; the sales were 1,000 bbls bonded, Philadelphia delivery, immediate 44c; this month, 43¾c. Wednesday, the market presented no particular change. The crude sales were 2,550 bbls in lots at 14@14½c for bulk, the latter figures for good gravity. Refined—The sales were 1,000 bbls in two lots, both for November delivery, Philadelphia, at 43c, a decline. Thursday, the sales of crude were 2,800 bbls, in lots, at various prices, ranging for bulk from 13½@14½c, according to the fancy of the purchaser. Refined—Dullness held possession of the market; prices have further declined; the only transactions were 1,600 bbls bonded, this month's delivery, Philadelphia, 42½c, the lowest figure yet. Friday, the market was too unsettled to quote correctly; the nominal rates were 13@14c. Refined—The market was heavy; prices were a shade lower; sales 1,000 bbls, free on cars, 36½c, and 500 bbls, October, free on cars, 35½c; nothing doing in free; prices nominal. Saturday—Crude Oil—The market on Saturday was very quiet. Buyers continue to hold off, waiting to see the extent of the receipts. Saturday's were large, amounting to 19,381 barrels. The principal portion of the receipts were to fill previous contracts, and were landed at the refineries above the city, thereby saving wharfage. The only sales reported were 250 barrels and 400 bulk at 14c for 42 gravity. The river to Oil City being in good navigable order, the oil that is ready will be forwarded.

Refined was more fancied. The sales since our last reach 3,800 barrels, as follows: 1,500 bonded, Philadelphia, October, B. O., 42½c; 1,000 bbls do same conditions, 42c; 1,000 bbls, November, do 42c, and 300 bbls free on cars during this week, 35½c.

Produce and General Markets.

[Pittsburgh Commercial's Report.]

MONDAY, September 24, 1866.—Business on Saturday was not very active. The sales made were principally confined to lots to supply the immediate wants. Prices for most articles were irregular. The weather on Saturday was pleasant. Our rivers are in fine order. The largest class of boats have no difficulty on account of water. The tow boat fleet have pretty much all left. At last accounts they were proceeding on their way rejoicing. The present run is one of the largest that has been sent out for some time, and will enable the citizens of the lower ports to lay in their winter supply on moderate terms. Business on the landing was moderately active. The America left for St. Louis with a good trip. The new steamers Belle Vernon and Argonaut No. 2 are receiving for that point. The Importer and Ezra Porter are loading for Memphis and New Orleans. They will have dispatch. The Argosy did not get off on Saturday for Cincinnati. She leaves to-day. The boats will have a busy time until after the adjournment of the Convention. Many of them have been engaged to carry delegations and feed them during the sitting of the Convention. There will be a gay time during the present week. Below will be found the sales that came under our notice:

HAY—The market was steady with a good demand. The receipts by river and rail were liberal, in fact the largest we have noted for some time. Sales 2 cars, on track, $21 00; 6 loads, loose, at the scales, $22 00; sales on the wharf of 1st bales Timothy, No. 1, $24 00, and 40 bales at the Allegheny Valley Railroad depot at $22 00 ℔ ton.

BUTTER—The market has undergone no change, we note a fair trade demand. Sales 14 packages, pails, 28c; 6 barrels choice roll 30@32c.

EGGS—We have nothing new to note in regard to this article. The market was firm with a good demand. Sales 10 barrels packed at 22@23c.

FEED—We continue to notice a firm market with a good demand for present and future delivery. Sales 8 tons middlings, $1 85; 1 car do, $1 90; sales 1 ton bran at $20 ℔ ton.

APPLES—The market was very dull, the supply being in excess of the demand. Sales 60 bbls, in lots, at $2 00@3 00 ℔ bbl.

SEEDS—The market was not very active. We quote Timothy at $3 00@3 25 ℔ bush; Flax was firm at the latter figure.

SWEET POTATOES—The receipts have largely increased. Sales 60 bbls Jersey at $5 00; sales 20 bbls Baltimore at $4 50. Stocks large.

SALT—Firm. Sales 1 car load at depot at $2 80 ℔ bbl. The supply is not large.

CORN MEAL—The demand is improving. Sales 12 bbls kiln dried at $4 50 ℔ bbl.

CHEESE—The market remains very firm, with a good demand. Sales 70 bxs at previous prices.

FLOUR—The market has exhibited increased firmness, with a steady demand for the various descriptions. The receipts were not large. The export demand has largely increased since the resumption of navigation to the oil regions. The following are the sales: Extra family winter wheat—150 bbls at $13 00@13 25; 100 do, $13 00; 50 do, $13 12. Spring wheat—Sales 400 bbls in lots from track at $11 75@12 00.

GRAIN—The market has undergone no particular change. Wheat remains very firm, with a good demand. Sales 100 bush winter at $2 65; sales 1 car mixed at Elevator at $2 35; sales 2 do No. 2 at $2 25. Oats were firm with a good demand. Sales 600 bush from store at 44c. Corn was active. Sales 1,200 bush at Elevator at 78c; 250 do, delivered, at 80c. Rye—Sales 1 car at Elevator at 95c. Barley—We did not learn of any transactions.

BACON—The market was steady with a good demand. As prices have undergone no change we omit figures.

New York Finance and Trade

Gold Closed at 143⅞.

Special Dispatch to Western Press.

NEW YORK, September 22, 1866.

MONEY.

The ease in money continues as great as ever, and the supply largely exceeds the demand.

THE GOLD MARKET

Closed quiet at 143⅞.

THE STOCK MARKET

Was firm after the one o'clock board, but the market was generally quiet.

By Associated Press.

NEW YORK, September 22.—Money quite easy at 4 per cent. Sterling steady at 107@107¼. Gold without material change, opening at 143⅞, declining to 143¼, and closing at 143⅞. Government stocks without decided change. Freights to Liverpool quiet and heavy.

The *Commercial's* money article says: The stock market, though only moderately active as usual on Saturday, is generally stronger. Erie is still in demand, and at the board touched 76⅝, an advance of ⅝ on the latest board transactions of yesterday. Reading sold freely, closing ⅝ higher. Rock Island and Fort Wayne were also quite active. Governments are quiet, but a shade firmer. Five-twenties of 1865 are ⅛ better, and 7 30s ⅛ lower. The abundance of money continues. Call loans are made mostly at 4 per cent, with exceptions at 5 per cent. There is a moderate demand for street purposes, not the requirements for discount are very limited. The extreme abundance of money obviates to a certain extent the use of mercantile credits, and places business comparatively upon a cash basis. The banks are discounting prime paper at 5@6. The bill brokers complain loudly of the lack of paper. Balances with the West do not call for any large amount movement of currency in that direction. Gold continues weak. Foreign exchange nominal.

The *Post's* money article says: The loan market is easy, and on call the rate is 4@5 per cent. Commercial paper passes at 5 per cent. for prime indorsed bills and at 6@7 per cent. for single names. The stock market is dull. Governments are in fair demand, and railroad shares are rather more firm. Erie is stronger in consequence of the contest for the control of the stock for the purpose of voting at the election next month. At 1:45, the following were the quotations: New York Central 106⅝; Erie 75⅞; Michigan Central 113⅝; Michigan Southern 83⅞; Pittsburgh 87; Northwestern 35⅞; Toledo 118; Rock Island 111⅝; Fort Wayne 105¾. Foreign Exchange closed more firm for the steamer. Bills at 60 days on London, were quoted at 108¼@108⅝ for commercial, 107¾@107⅞ for bankers' do at short sight, 108¼@108⅝.

Weekly Review of the New York Wholesale Market.

NEW YORK, Sept. 22.—Flour has been much excited, although variable. The moderate receipts and small stock have created a strong competition between buyers at times. The present supply is less than has been known for many years at this time, hence the strong upward tendency. Unsound flour has advanced a dollar a barrel, and has been taken freely for coastwise trade and export. The exports of the week were 25,926 barrels, against 33,205 barrels for the corresponding week last year. The sales of the week were 80,000 barrels western. The market active and buoyant.

Wheat has been active and advanced 12 to 15 cents a bushel. All descriptions are in demand, and inferior qualities particularly sought after at the close. The stock is reduced to 124,000 bushels which is extremely light. The tendency at the close is strongly upward, notwithstanding the extreme prices prevailing.

Oats have been excited and advanced 5 cents a bushel. The market closes firm, with large speculative purchases.

Corn has been extremely active and excited. The movement is chiefly speculative. The transactions have reached a million and a half of bushels. At the close prices show an advance of 7 cents a bushel. The present stock is 1,500,000 bushels.

Barley and barley malt have been more active and are firm at the close.

Rye has sold more freely at an advance of 2 to 3c a bushel, and closes firm. The stock is large, exceeding 300,000 bushels.

Provisions have been in fair request, although prices generally have favored the buyer. The speculative demand has not been so brisk, and buyers have bought sparingly.

Cotton has advanced slightly, and prices are steady. The stock of cotton in this port is not far from 100,000 bales. The sales and re-sales for the week were 7,200 bales, and the receipts 3,385; and since September 1st, 15,789 bales.

THE RIVER.—Last evening, at twilight, the marks on the Monongahela indicated twelve feet and falling. In the Allegheny there were thirteen feet. Weather pleasant.

THE following boats are undergoing repairs: Coal Hill, Tom Jones, Dolphin and V. F. Wilson.

THE Parkersburg packet for this day is the steamer Bayard, Captain Moore. She leaves at noon. Persons going that way will be well cared for.

THE new and splendid side-wheel steamer Quickstep is announced for a regular weekly packet between this city and Cincinnati, leaving here every Saturday in charge of Captain Donaldson, with Captain S. Barr in the office.

THE fine packet Pine Grove, Captain J. W. Abawalt, has been engaged by the Beaver Delegation to carry them to and from the great Convention. They will have a gay time on the Pine Grove.

THE fine packet Argonaut No. 2, Captain H. C. Richmond, is announced for Cairo and St. Louis. This boat is well found in every respect, and is in charge of careful and attentive officers. Our old friend Adams will be found in the office.

THE first-class passenger steamer Argosy, Capt. Vandergrift, is now at the landing receiving for Cincinnati, for which port she will positively depart on Saturday. This boat is in splendid order. The first clerk is our old friend Scott, one of the cleverest officers that comes to this port.

THE splendid passenger steamer Importer, Capt. John Ness, is loading for Memphis and New Orleans. This boat has the best of accommodations, and is in charge of experienced and attentive officers. Our esteemed friend, Captain James Mellon, does the honors in the office, with credit to himself and with profit for the owners.

THE new and splendid passenger steamer Belle Vernon, J. J. Darragh, Jr., commander, is announced for Cairo and St. Louis. This boat was built especially for the trade and is well found in every respect. Captain Darragh is a clever and attentive officer and will see that passengers are well cared for, being a "chip off the old block." He will be ably assisted by our accomplished friend, Mr. Wm. F. Blackstock, an officer who has no superior.

Packet Ezra Porter.

The above is the name of one of the handsomest and best fitted up side wheel cotton boats that we have seen for a long time. She was built under the superintendence of her commander, Joseph H. Porter, an officer who has built a number of boats, all of which have been successful. Length, 180 feet; beam, 35 feet; hold, 6 feet; height between decks, 12 feet. The hull was built of seasoned material, and is extra fastened. The engines were furnished by Mr. R. Lea. Cylinders, 17 inches, with six feet stroke. The machinery contains all the latest and best improvements, and is a credit to all engaged. She has 3 boilers, which are 40 inches in diameter and 24 feet long, and furnished by Mr. Douglass. The cabin was built by Mr. M. F. Cassidy, from new designs, and is a handsome affair. The Painting, by Wm. Lees, does credit to that art. The furniture was manufactured expressly, and was gotten up without regard to expense. The carpets were furnished by Messrs. McFarland & Collins, and are truly magnificent. The upholstery by Messrs. Holtzman & Welderhold. The lamps are among the handsomest we have seen for a long time, each being furnished with six lights—one more than usual. They were furnished by Messrs. J. Ross & Co., Market street, who have a few more left. They are worth examining. The Ezra Porter is complete in every respect. She is entirely new, engines, furniture, &c. The cabin outfit was furnished by Messrs. Caldwell & Bro., and is the best that could be procured. Her draught of water with water in the boilers and fuel, is only twenty-six inches. She is intended for a New Orleans and Red River packet, and will be the finest boat running on that river. She will commence receiving this day, and will have dispatch. Her commander is well known as one of the cleverest officers that comes to the port. He is one of nature's noblemen in the true acceptation of the term. Our best wishes attend the Ezra Porter.
